\$400,000 DAMAGE IN BELLINGHAM FIRES

BAYONET CLASHES BETWEEN CHINESE TROOPS FIGHTING IN FRONT OF SHANGHAI

Machine Gun Fire With Heavy Losses Finally Forces Retreat of Attacking Kiangsu Men

Shanghai, Sept. 30.—The fourth day of continuous fighting between rival Chinese armies near Shanghai was completed to-night with no evidences that early termination of the battle could be expected.

The battle started Saturday with opening of an offensive by the Chekiang-Shanghai forces against the besieging Kiangsu province armies.

At 9.30 o'clock to-night the muffled roar from the war front some score of miles distant told Shanghai that the entrenched fighters still found strength to continue their conflict.

BURNABY FIRES FRANK BROWNE, MEMBER-ELECT

Refuse Leave of Absence to Enable Him to Attend Duties in Legislature

Order Treasurer to Advise For New Municipal Accountant

Edmonds, B.C., Sept. 30.—Standing pat on its previous decision to refuse leave of absence to the municipal accountant, Frank Browne, M.P.P., to enable him to attend to his duties in the Legislature at the coming session, the Burnaby Municipal Council last night virtually decided to dispense with Mr. Browne's services by ordering Municipal Treasurer R. Bolton to call for applications for his position.

NOT KEPT OPEN

As there was no hint that the applicants were to be advised that the services of the appointee would be required only temporarily, it is assumed that the council does not propose to keep the post open for the labor member.

The first step taken by the council was to order a letter from Mr. Browne filed, no comment being made.

In his communication Mr. Browne stated that he proposed to attend the House at Victoria October 27 and added:

"I shall be pleased to do all in my power to assist my substitute in taking over the duties as soon as selected by the council."

"I repeat my desire to work in harmony with the council for the best interests of Burnaby."

PROTESTS

Communications protesting against the "unwarranted" action of the council in refusing the member-elect leave of absence were sent by the Amalgamated Association of Street and Electric Railway Employees and the Vancouver Civic Employees' Union.

These also were ordered filed.

At this stage a resolution was passed again refusing Mr. Browne leave of absence.

Holding on its course, the council then gave the instructions specified above to the municipal treasurer.

VETERAN BODIES ENDORSE EFFORT

Soldiers Approve Project to Mark Memory of Heroic Deed

Two letters which have been received at the office of Victoria War Memorial committee have greatly encouraged members in their appeal for funds.

One is from the Canadian Legion, which endorses not only the appeal, but the location and method of collecting money, and the other from the Armistice Day Committee. As the latter is the most representative returned soldier body in Victoria the letter has strengthened the hand of the committee in its appeal.

There will be a committee meeting on Thursday, to prosecute the campaign, which is not making as rapid headway as had been expected.

Arrangements have been made with the city schools to distribute collecting boxes in the various schools for the fund.

Additional subscriptions are as follows: H. E. and E. J. Dann, E. C. Hayward, T. W. Hawkins, Kuntz Club, E. and H. Crocker, a friend, O. T. Goldsmith, J. A. Beedham, H. I. Malick, T. Obce, a friend, and Major W. Gerrard.

OIL COMPANY HEAD BELIEVED SUICIDE

M. Rogers, One of Wealthiest Men in Lethbridge, Found Dead From Gun Wound

Lethbridge, Sept. 30.—Mark Rogers, head of the Canadian Oil and Refining Company of Lethbridge, is dead and evidence points to suicide from a shooting about 2 o'clock this morning at his home here. He was one of the wealthiest men in Lethbridge, being interested in many ventures besides drilling for oil on the Montana border. During prohibition he is said to have amassed a fortune by operating liquor export houses at Lethbridge, Fernie and other British Columbia points. An inquest has been ordered.

OLDEST OREGON REPORTER DEAD FROM A FALL

Portland, Ore., Sept. 30.—Addison Bennett, oldest and best known newspaper writer in Oregon, died at a hospital to-day, aged seventy-nine, from the effects of a fall suffered at his home here recently in which he fractured a hip.

VANCOUVER FIRM GETS CONTRACT FOR COAST ROADS

Robertson Brothers of Vancouver have been awarded the contract for building roads around Bella Coola to connect with the new Dominion Government wharves there, Hon. W. H. Sutherland, Minister of Public Works, announced to-day. The successful tenderers' bid amounted to \$45,000 and was far below any other figure submitted, Dr. Sutherland said. Work will commence immediately while the Dominion authorities are building the new wharf.

MACDONALD NOW HERE TO TENDER HIS RESIGNATION

Provincial Secretary Busy Winding up Departmental Affairs Before Retiring

Many Important Questions Await Consideration of the Premier, Due To-morrow

Hon. K. C. Macdonald, Provincial Secretary, reached here to-day to hand his resignation to Premier Oliver. The defeated Minister attended a meeting of the Cabinet this morning but no decision on the date when he will formally resign was reached. Dr. Macdonald has yet to clear up a number of matters outstanding in his department and when he has attended to these he will retire to private life. His successor will be named on the Premier's return. It is expected that Hon. J. D. MacLean, Minister of Finance and former Provincial Secretary, will fill the position until after the Fall session of the Legislature.

The Premier is expected to reach here to-morrow afternoon from the mainland unless he spends the day in Vancouver. A number of important matters await his consideration. The first of these is the reorganization of his Cabinet, following Dr. Macdonald's defeat. Whether he will appoint another minister is not known but it is considered possible that he may ask one of the Vancouver members, probably Brigadier-General Victor Odium, to become a member of his Cabinet without portfolio, thus avoiding another by-election.

One of the first matters to which the Government will turn its attention will be a dispute between the Department of Agriculture and contractors who announced plans to start this project. It is hoped that a settlement of this dispute may be reached by the afternoon. The return of Hon. E. D. Barrow, Minister of Agriculture, from the mainland.

SCOTTISH RITE MASONS COMING

Will be Here Friday and Saturday After Convention in Vancouver

There will be a large gathering of Thirty-third Degree Masons of the Scottish rite in Victoria on Friday and Saturday, following the convention of the Supreme Council for Canada of the Ancient and Accepted Scottish Rite in Vancouver, which opened here this morning. It is the first time this body has met in B.C.

A banquet will be held at the Hotel Vancouver to-morrow evening. In addition to the provincial members, there will be a number of American Masons at the gathering.

J. Alexander Cameron of Montreal, sovereign grand commander, was among those who have arrived in Victoria.

Sir John Gibson, former Lieutenant-Governor of Ontario, and Lady Gibson, did not make the trip West with the special party over Canadian National Railways line, but they will take part in the sessions and social affairs arranged, respectively, for the visiting Masons and their wives.

Deputies from the province of Canada who are in Vancouver are as follows: J. H. Winfield of Halifax, N.S.; Rev. Frank Charters of Montreal, Quebec; F. J. Howell of Hamilton, Ontario; deputy, and Mrs. Howell; J. Miller of Winnipeg, Manitoba; deputy; Alexander Sheppard of Regina, Saskatchewan; Dr. E. A. Braithwaite of Edmonton, Alberta; deputy; and J. B. Seymour, deputy of British Columbia.

GIANT DIRIGIBLE HEAVILY INSURED

Friedrichshafen, Sept. 30.—The giant dirigible ZR-3, built here by the Zeppelin Company for the United States navy, which, according to recent announcements, will start within a week on her trans-Atlantic flight to Lakehurst, N.J., has been insured for \$500,000 by English, Dutch and German companies.

BRAZILIAN REBELS SURRENDER TO TROOPS

Buenos Ayres, Sept. 30.—A battalion of Brazilian rebels, composed of two hundred officers and men, has surrendered to Federal troops near Sao Jao, according to a telegram from the commander of the Federal forces in Mato Grosso. The rebels had suffered many killed and wounded.

MEMORIAL APPEAL

The committee appointed at a public meeting to ensure the erecting of a war memorial in honor of the citizens of Victoria who gave their lives during the Great War have pleasure in reporting that all arrangements have been completed for receiving subscriptions and an office has been opened at 610 Fort St. In order that all may have an opportunity of bringing their gifts, whether small or large, the office is open daily from 9 till 6 and on Saturday from 9 till 9. Those who desire to mail their contributions please note the address.

Let us all pull together, take the opportunity which is offered, and so remove from Victoria the reproach that she has forgotten those who made the great sacrifice.

H. T. RAVENHILL, Chairman.
A. E. HARRISON, Campaign Secretary.
L. L. BROWN, Honorary Secretary.

JAPANESE AGREE TO COMPROMISE ON PEACE PACT

Withdraw Amendment to Aggressor Clause Which Threatened Geneva Treaty

Geneva, Sept. 30.—A complete accord was reached to-day by Sir Cecil Hurst of Great Britain, M. Loucheur of France and Signor Scialoja of Italy, the three plenipotentiaries entrusted with the task of finding a solution of the difficulty brought about by the presentation of the Japanese of an amendment to the protocol on arbitration and security. The agreement reached is satisfactory to the Japanese, who were represented by M. Adachi at a private conference with the special committee this morning.

JAPANESE ACCEPT

The broad basis of the solution arrived at, Dr. Benes of Czechoslovakia, informed the Associated Press, is that the Council of the League of Nations always will have the right to examine all conflicts arising between nations with a view to the Pacific settlement of such conflicts. He said that the Japanese had formally accepted the compromise formula and that the amendment to the aggressor clause, which makes an aggressor of any state refusing to abide by a decision of the world court when the matter involved is one of international jurisdiction, is one of intervention.

When the Council or World Court declares that a dispute involves a matter within the domestic jurisdiction of one party to the dispute, the aggressor nation will be obliged to refer the matter to the court for a decision but for amicable intervention looking toward a settlement, if this is not sought, then the party agreement whom the World Court ruled in declaring the issue a domestic one, will continue to be an aggressor. A member of the aggressor nation, however, may bring up the question. The attitude of the British dominions to the compromise agreement was "not clear," Signor Scialoja told the correspondents after this morning's meeting that the accord that had been reached would be presented to the sub-committee of the judicial commission at 3 p.m. A full meeting of the arbitration commission has been convoked for 3.45 for final discussion of the accord.

UPON LEGAL PHASE

Tokyo, Sept. 30.—Japanese insistence on the amendment to the proposed protocol of arbitration and security now before the League of Nations is based wholly upon the legal, not the immigration phase of the question and inferences to the contrary are far fetched, according to official views. The most important of the newspapers and officials and the manner in which the press avoided any previous reference to the subject was the most remarkable characteristic of Japan's reception of the pronouncements of Japanese delegates at Geneva.

SCOTTISH RITE MASONS COMING

Will be Here Friday and Saturday After Convention in Vancouver

MINES FLOODED, BRIDGES DOWN IN FLOODS IN UNITED STATES

New York, Sept. 30 (Canadian Press)—Six deaths have been reported and hundreds of thousands of dollars damage to property, the result of floods in different parts of the country which reached a crest to-day following forty-eight hours constant rain. Eastern Pennsylvania reported flood conditions with streams rapidly rising and three drownings.

At Jermyn, near Scranton, a concrete bridge over a stream gave way and two men were swept away in the floods. A woman standing on the bank of the creek at Miners' Mills, near Wilkesbarre, was precipitated into the water when the bank washed away, and was drowned. Hazelton reported eighteen of the anthracite mines in the vicinity flooded with a consequent cut in production of fifty per cent. At Mauch Chunk two men repairing a sewer archway were caught in a rush of flood water and drowned. At Wilkesbarre a workman came in contact with a live wire blown down during the storm and was instantly killed. Floods and was instantly killed. Floods and was instantly killed.

MUSSOLINI TO BUILD TALLEST SKY SCRAPER

Rome, Sept. 30.—Premier Mussolini to-day received in audience Mario Ascani, an Argentine architect and engineer, and approved plans for the construction in Rome of the largest and tallest skyscraper in the world. It is intended that the structure shall be a monument to Fascism, but it is also to be a practical building. It will be erected on government land, in the Quarter Castro Pretorio, which has become the centre of new Rome. It will be 300 metres tall, or two and a half times higher than St. Peter's. It will have a frontage of 300 metres. It will run up eighty stories and contain altogether 3,500 rooms, 100 huge committee rooms, one large theatre, a concert hall and a gymnasium.

BANK CLEARINGS

For month of September bank clearings were: Vancouver, \$2,331,410; N.E. Westminster, \$2,765,212.

BUILDINGS ROCK IN EARTHQUAKE FELT IN MAINE

Portland, Maine, Sept. 30.—A slight earthquake was felt early to-day in this city and reports from other points indicate that the movement was apparently over a large area. In Rockland, two distinct shocks were reported, the first at 3.30 o'clock, rocked buildings, while the second, five minutes later, was slight.

Sherbrooke, Que., Sept. 30.—Distinct shocks lasting more than a minute and a half were felt at 2.55 this morning in Sherbrooke. A distinct rumbling sound was heard. Reports from Valley Junction indicate that the shock was more severe there, although no damage was reported. Flower pots were shaken off windowsills and other smaller objects shaken down.

FIRE WRECKS BOX FACTORY OF BELLINGHAM MILL AND SWEEPS INTO LUMBER YARD

Bloedel-Donovan and Morrison Companies Suffer Total Loss of \$400,000 in Midnight Blaze; Four Firemen Overcome in Battle With Flames.

Bellingham, Wash., Sept. 30.—Fire which destroyed the box factory of the Bloedel-Donovan Lumber Mills and swept through one-third of the lumber yard of the Morrison Mill Company's cargo plant here shortly before last midnight, caused a total loss of \$400,000, it was estimated by officials to-day, after the fire had been brought under control. About seventy-five per cent of the loss is covered by insurance. The blaze was fanned by a strong southeast wind and for several hours it appeared that the Morrison Mill could not be saved. The firemen made their successful stand at the edge of the main plant.

LUMBER LOST

In addition to the box factory, built at a cost of \$120,000 and employing eighty-five men, the Bloedel-Donovan Company lost about 4,000,000 feet of lumber and the Morrison Company lost approximately 9,000,000 feet. Each company placed its loss at not less than \$200,000.

Four firemen were injured or overcome by smoke and three of them are in hospital to-day. All will recover.

The fire, which started at 12.15 o'clock this morning in the box factory, soon destroyed the factory. Sparks alighted on the Morrison Company's mill, three blocks distant. A strong wind blew in the direction of the neighboring mill. All available men of the city fire department were called out in an effort to prevent the fire from spreading.

The Bloedel-Donovan Company's mill here is one of the largest in the world.

SLOT MACHINES ARE ILLEGAL IN CANADA AFTER TO-MORROW

Ottawa, Sept. 30.—By an amendment to the Criminal Code made at the last session of Parliament slot machines after to-morrow, October 1, will be regarded as games of chance and their operation illegal throughout Canada.

PATHOLOGISTS TESTIFY AT BOAK HEARING TO-DAY

Chief Constable Robert Owens Declares Saw Human Remains on Car at Trial Below

Witness Tells of Two Cars Racing on Quadra Street Between 9 and 9.30 p.m.

That he had seen a particle of what he took to be either skin or brain on one of the doors taken off the Boak car, while the preliminary hearing was actually in progress was the startling statement made to the Assize Court to-day by Chief Constable Robert Owens, forty-third witness for the Crown. The police officer stated he pointed out the matter to E. L. Tait, crown prosecutor at the time, and to P. C. Rawling, both of whom sat near the table on which the doors rested. No action had been taken on his discovery at that hearing, said witness, who stated that he was surprised and reported the matter to the superintendent of the provincial police.

A further story of two cars racing on Quadra Street between 9 p.m. and 9.30 p.m. was told the court this morning in the sixth day of the hearing of Rex versus Boak, when John W. Brotherton, a resident of the Lake Hill district, said he had to step from the roadway to the bank to allow the cars to give him a wide berth, was traveling in the centre of the road and the other hugging it closely, both southbound.

Indicated by the Crown in opening this morning, the evidence of pathologists will be called this afternoon. Two doors and a piece of car handle rubber have been submitted to the analysts for tests and the result of these tests will be laid before the court.

M. B. Jackson, K.C., for the Crown, replying to complaints of delay in furnishing this material to the defence, made by H. A. Maclean, K.C., stated that some equipment had to be brought from San Francisco and from Toronto in order to make the tests possible. D. E. Whittaker, Government analyst; Dr. John H. Moore, pathologist of the St. Joseph's Hospital; and Dr. W. B. Walker of the Jubilee Hospital, made independent tests which will be given to the jury in detail this afternoon.

COSTS SOAR

The cost of the Assizes, not yet completed its first hearing, with three cases yet unheard, already approximates \$4,000 to date, comprised of heavy witness fees for a total of fifty-five witnesses for the Crown. Mr. Justice Murphy, presiding, declared to-day that the proceedings would have to be pushed along much faster than they have been going.

(Continued on page 2)

TAX SALE BEGINS IN THIS CITY

Larger Attendance Than Year Ago; Two Classes of Properties

While delinquents were engaged paying into the treasury taxes to save their property from the tax sale, City Treasurer Smith started this morning on a long list of some 500 parcels of land, to be disposed of during the present annual tax sale.

Before adjournment ten parcels were disposed of at the upset price of \$2,494.55. The attendance was much larger than a year ago, and the evidence appears to point to steady interest. It is intended to call off to-morrow's sale formally in order to permit the civic court of revision to assemble, and selling will be resumed on Thursday morning, after which it is expected to proceed without check.

This week the treasurer will be engaged in offering properties upon which there are no consolidated arrears, and this is the section where the rush to the city hall is concerned, as payment of the 1922 taxes would keep the property out of tax sale.

Next Monday it is intended to make a start upon the properties charged with arrears of taxes consolidated in a ten-year payment plan, and all charges up to the end of last year have to be met on these lots.

In connection with the property offered, it is surprising how large a percentage is small residential property, where the taxes are small against the estate.

There will be very little business property offered, the delinquents having rallied to prevent this during the past few days.

LIONS CLUB OPENS CONTINENT-WIDE DRUG BATTLE

Toronto, Sept. 30.—A continent-wide battle against the evil of narcotics is to be waged by the Lions Club in every state of the United States and every province in Canada. Under a plan to be laid down by the international executive of the Association of Lions Clubs preliminary steps were taken here yesterday at the opening session of the international executive meeting.

MADE MAYOR OF TOKIO; GOTO MAY DECLINE IT

Tokio, Sept. 30.—Viscount Shimpei Goto, former mayor of Tokio, was re-elected to that office by the municipal assembly at a meeting this afternoon. Dr. Goto's acceptance, however, is considered doubtful.

The election held to-day followed the resignation as mayor of Hidejiro Nagata on September 5, after a disagreement with the assembly over the confirmation of one of Nagata's appointees.

NELSON PUTTOCK, B.C. HARVESTER, DIES

Saskatoon, Sask., Sept. 30.—Nelson Puttock, a harvester from British Columbia, dropped dead while at work on a threshing machine near Kinley, Sask. His smothering, his antecedents are not known here.

SPENT THREE DAYS IN AN OPEN BOAT

White River, Ont., Sept. 30.—After three days and nights in cold Autumn weather spent in an open boat on an exposed island in White Lake with their only food a light lunch, sufficient for one day, John Campbell, 27, and his wife, a telegrapher of King, a station twenty miles west of here, arrived yesterday much exhausted from their experience.

They had gone out Friday in a launch to spend the day, were disabled in a storm, driven ashore and found by a lumberman after search parties had failed. They had practically been given up for lost.

A real peach short-cake

Not made with soggy, white flour crust—no mixing of dough, no baking, no kitchen work or worry—just luscious slices of yellow-ripe peaches piled on Shredded Wheat Biscuit and served with cream. Nothing so wholesome and delicious as peaches or fruit of any kind on these little loaves of crisp, well baked, flavory shreds of whole wheat. Two Biscuits with peaches

make a perfect meal for breakfast, for luncheon or for dinner. It is the most food for the least money.

The Canadian Shredded Wheat Company, Ltd. Niagara Falls, Ontario

Shredded Wheat

NEWSPRINT TRADE WILL BE EXTENDED

Great Britain's Preference Had Practically Cut Canada Out of Australian Market

Sydney, N.S.W., Sept. 30. (Canadian Press cable via Reuters)—H. E. Pratten, Minister of Trade and Customs of Australia, explaining in the House of Representatives the pro-

posals with regard to the Canadian-Australian trade agreement, illustrated the striking advantage of the newspaper preference which Great Britain has had since 1921 and which had practically destroyed the Canadian newspaper trade with this country. Last year Australia took 40,000 tons of Great Britain's total export of 74,000 tons, the Minister said.

Canada will not likely be able to export more than 30,000 tons of newspaper a year to Australia under the new agreement, it is thought, and the result of the agreement will not materially alter the present trade in newspaper with Great Britain, but it will result in cutting out the newspaper exports from Scandi-

DIES WITHIN FEW HOURS OF HIS SISTER

Toronto, Sept. 30.—Within 24 hours after the death of a younger sister, Miss Amelia Robinson of Toronto, Thomas Robinson, who had come to the city because of Miss Robinson's illness, succumbed to heart disease at her home yesterday. Until the seizure he had appeared in good health.

CROWN WITNESSES AT TIME BARRIER BOAK HEARING

Witnesses Declare Party Broke up About 9 o'Clock Four New Witnesses Tell of Seeing Traces on Boak Car

New lengths in the hearing of the manslaughter charge against Dr. Eric W. Boak were indicated by M. B. Jackson, K. C., crown counsel upon the resumption of the trial at 2 o'clock yesterday afternoon. Two new witnesses have been added by the Crown, bringing the roster up to fifty-one persons who will take the stand during the course of the case for the prosecution.

Exhibit 34, the left running board of the Boak car, was entered at the opening of the hearing, in evidence as to the presence of abrasions and marks on the underneath side, contested at the morning hearing.

The afternoon, with three hours of evidence, was spent by the prosecution in whitening away at the important time factor in the case. Five doctors who had been guests of Dr. Fraser at the Brentwood party on the day in question took the stand to tell of their presence at the home at the party broke up before 9 p.m. or thereafter.

TWO SPEEDING CARS
Others told of two racing motor cars which passed at a terrific speed, headed in the direction of the city. One or two witnesses testified that they recognized the car of Dr. Duck and thought the other of the pair had been one similar to that driven by Dr. Boak. Witnesses did not agree as to the speed of the cars, some saying from twenty-five to thirty miles an hour and others from forty to forty-five miles an hour. No witness directly connected the accused as an occupant of either car.

At the opening of the hearing the defence started a hare that had a short run before it was nipped by the prosecution. H. A. Maclean, defence counsel, asked the Crown to admit that there was a blood or other relationship between the Ballantyne family and the witness Dempster. Called to the stand Mr. Dempster denied any connection with the be-reaved family other than that he had been a friend of the late Mr. Ballantyne for the past ten years.

BRAIN ON VISOR?
Patrick O'Connell, a motor salesman of the Reg Motor Company took the stand to testify that he had seen traces of foreign substance on the Boak car on the morning after the accident. Witnesses testified that two inches long under the sun visor at the left hand corner which he described as a "mushy substance, red and creamy," which he took to be brains. A small object, which was stripped away from the corner of the sun visor and missing. Witness saw nothing else on the car that aroused his attention. The sun visor was linked at the top in the normal position from the top of the hood over the wind shield.

John A. Fennell, a fellow salesman of the Reg Motor Company, took the stand to accompany the previous witness to the scene. He too saw the sun visor when his attention was drawn to it, and saw what he took to be brain matter at the left hand corner. Witness was within three feet of the spot at the time. He saw nothing unusual but did not go around the car to look, concluded Mr. Fennell.

John Cocking testified the court with a tale of several blood spots on the left hand side of the Boak car. Witness said he called at the scene between 8 a.m. and 9 p.m. on the day. He noticed an inch and a half of black leather rubbed from the iron of "the thing that comes over the windshield" and a string of something looking like blood.

SAW BLOOD SPOTS
On the rear left mudguard witness said he saw four or five spots of pus, which he described as blood and matter. Witness testified that he saw four or five spots of blood in addition to the ruling board on the body of the car. Witness did not go around the car but stood at the left side, looking.

Witness, on cross examination, described the blood stains on the left mudguard as distinct spots which appeared to have splashed on from a point six inches above the running board to near the top of the mudguard. He saw nothing at the exact centre of the mudguard. The blood spots varied from the size of a small five cent piece to that of an American nickel. He splashed water upon them as if something thrown, he repeated. In the left hand corner of the sun visor he saw a "kind of stringy stuff," concluded witness, who said his hands were wet when he made these discoveries.

MARKS PLAINLY VISIBLE
Mrs. Jane Cocking, wife of the previous witness, said she saw some spots on the Boak car of blood and matter mixed together. Some were on the mudguard, some on the running board, and a mark on the sun visor, all on the left hand side. Witness saw five or six blotches on the running board, four on the mudguard, the latter rather larger. This would be about 8 a.m. on August 21. The marks were quite plain enough for anyone to see, some being as witness put it, "bigger than the top of my thumb."

Gordon Ballantyne, a son of one of the men slain on the night of August 20, stated he heard his father talking to Mrs. McLachlan in a nearby room in the Quadra Street family residence, when he entered the house at 8 p.m. on a hard day's work. He looked at the clock himself at 10:10 p.m. and decided to go to bed instead of reading as accustomed. He went upstairs and was in bed within five minutes. Shortly after that he heard the screech of brakes, but thought no more about it. Witness in answer to a question by the court, said he had no personal knowledge of when the two elderly men left for their ill-fated walk.

DOCTOR'S STAND
Dr. Forest Leader, subpoenaed by the Crown with other medical men to give evidence, stated that to his mind the party at Dr. Fraser's home broke up before 9 p.m. Witness testified his best guess is that he was walking on the private drive to the road was lighted by the headlights of two cars that passed him en route. His own car was on the roadway, facing the city. Witness did not know

who were in these two cars. Later on the road he observed Dr. Moore and Dr. McMeeking at the side of the road with tire trouble.

Witness met little traffic in driving home. He came by way of the Mount Newton Cross Roads which were bumpy. En route two lots of three cars each, northbound, passed him going in the opposite direction. He passed and was passed by a vegetable delivery wagon which then proceeded fifty yards ahead of him towards the city until it turned off the road some distance south of the scene. This car was within his sight for the entire route.

TIME OF ARRIVAL
Witness, at Fort Street, looked at his watch, which was then 9:27 p.m. and reflected he would be home at 9:30 p.m. He read about the accident next day and checked his watch which was three minutes fast. He would say he was at Mears Street at 9:25 p.m. At no time to his knowledge was he passed by or did he pass the Boak car.

Asked, on a point of medical testimony, how long human remains would take to grow cold under circumstances, witness stated that eight or ten hours would be required. On cross examination witness said his was the fifth car to leave the party. Witness travelled at a speed of twenty-five miles an hour on the way home, the crossroads of this were passed at twenty miles an hour, the road being a little less than a mile long, and struck by the absence of traffic on the road.

Dr. A. B. Hudson, was the second medical witness to take the stand. Witness left the party and started home in Dr. Taylor's car, at 8:50 p.m., among the first of the guests to leave. He arrived at the City Hall at 9:40 p.m.

DID NOT SEE ACCUSED
The car was overtaken by two cars on the Saanich Road, west by the Prarie Hotel. These were city-bound and traveling at a high rate of speed. He would place their speed at between forty and forty-five miles an hour. One was a two seater car, and they were not very close together. To his personal knowledge he neither passed nor was passed by the Boak car.

Dr. William T. Barrett, the third professional man called, stated that he traveled home with Dr. Nelson. Witness could not swear what time the party broke up, but was, he thought, before 9 p.m. Witness came in a car that was parked next to that of Dr. Boak, and witness' car got away first.

Just near the Prarie Hotel two cars passed that of witness, and witness took one to be that of Dr. Boak and the other to be that of Dr. C. W. Duck. They were traveling close together and passed one right after the other. Witness was not going fast at the time.

Dr. E. C. Hart was ahead in a car that stayed fifty yards ahead as the witness all witness saw in front of him. He arrived at his home at 9:40 p.m. in his own office by some ten minutes before he looked at the time. It was then 9:50 p.m. Witness said he passed a small car near the Prarie Hotel, a little car that was going rather slowly. Witness would estimate his arrival at town as 9:40 p.m.

AT PRAIRIE HOTEL
Dr. Rundle Nelson took the stand. He too had attended the Fraser party. He came home with Dr. Barrett. They left at 8:53 p.m. or thereabouts. At the Prarie Hotel two cars passed the witness. He took the lead car to be that of Dr. Duck, but did not know who owned the second one. He felt it was Dr. Boak's car but did not actually see it if it were or not.

Witness arrived opposite the Gold-on-West Bakery on Quadra at 9:53 p.m. or thereabouts and remarked that they had come in in about thirty five minutes. He went to the home of Dr. Barrett to get his own car and it was then 9:40 p.m. He did not see the Duck nor Boak car again.

Here Mr. Maclean had a slight brush with the witness as to advance information supplied as to what exact witness would say. Mr. Maclean claimed a divergence in the sheet and in the statements made in the box. Mr. Justice, after a brief hearing, pointed out it was a lengthy case, he said and both counsel had done well so far.

On cross examination witness gave his average speed on this occasion at twenty-eight miles an hour. Part of this time, on the cross roads, had been twenty miles an hour. The Fraser home was 200 yards or so from the Prarie gateway on the public road, with a sharp grade between.

Dr. Edward Charles Hart, City Coroner told of making the same journey in a light car. Mine was a chuckie. He left between 8:45 p.m. and 8:50 p.m., being the first to actually leave the house. While he walked to the roadway, 400 yards or so, five or six cars passed him, and he saw their tail lights ahead on the crossroads. He was under way in less than ten minutes after leaving the house, and yet other cars followed.

OF TYPE SIMILAR
Only two cars passed him, witness said, these being two that passed his vehicle at the Saanich Road. He could not say he recognized the occupants, but one car was of a type other like that of Dr. Duck and the other like that of Dr. Boak in type. This was north of the Prarie Hotel that the passing took place. Witness did not have any incident on the road. He looked at his watch some time after he had been home and was going to bed. It was then 10 p.m.

Questioned as to the technical point of the time taken by a human body suddenly killed while in good health to cool, witness said the rate of cooling was normally four degrees per hour in the first three hours and more slowly after that. The human body normal temperature was 98.4 degrees, and twelve or fifteen hours would elapse before a body could be said to be either "cold" or "stone cold," he said. "The extremities such as the hands would cool more rapidly, and the trunk was the place to take the temperature. The wrists might remain hot for fifteen minutes, but that was merely guess work, he said.

Witness, cross examined further, said he passed two cars and was passed by two. These included a Ford car and a small two seater. There were some thirty cars in the doctors' party, and the two that he passed him, and which he took to be the Duck and Boak car cars, of that type were south of Saanichton by some distance.

ALMOST SIDE BY SIDE
Mrs. W. B. Pease, of Hamsterley Lakeside, stated she was standing in the doorway watching for the bus to arrive

on the night in question when she saw two cars go past. They were traveling very fast towards the city, and were almost side by side. This would be about 9:15 p.m. or somewhere around that time.

Miss Nancy Bereman stated that she had been at the Hamsterley Lakeside on the night in question. Shortly after 9:15 p.m. she saw two cars racing by going at a terrific speed towards the city.

Mr. Arthur Hanson, a chauffeur engaged in the city, stated that he too had been at the Hamsterley Lakeside that night. Between 9 p.m. and 9:15 p.m. he saw two cars pass as if from the direction of Sidney. One was an Oldsmobile and the other a McLaughlin.

Witness, who said he had the habit of taking car numbers, said the number of one was 632, and that of the other he thought was 4172, but had since found out it was incorrect. The cars were traveling at between twenty-five and thirty miles an hour, to his mind.

The Court—Tell us why you took those numbers, it was an unusual thing to do.

Witness replied that such was his habit. He saw the number "632" plainly enough in the front light of the Duck car. The other number he took from the rear and was not sure of.

Mr. Maclean, rising to his feet, said he was prepared to prove that witness' story was impossible as Dr. Duck had no rear light on his car that night. Witness repeated that he had taken the number of the Duck car by its own headlights, in front. The court rose at this point to sit again at 10 a.m. to-day.

EXPECTS HOLLAND WILL SEND MANY EMIGRANTS HERE

Vice-President of C.N.R. Impressed With Chances of Gaining Settlers

Unemployment Near 1,500,000 Mark in Britain He Says on Return to Canada

Montreal, Que., Sept. 30.—"I am more than ever convinced that Canada offers finer prospects than any other country in the world for industrious and thrifty people who are looking for a place to establish homes and make a living." These were the words of W. D. Robb, vice-president of the Canadian National Railways, when he arrived from England and Scotland, Belgium, Holland and parts of France, where he has been reviewing the possibilities of obtaining settlers.

Mr. Robb is firmly of the opinion that the North of England and Scotland, especially Scotland, have a large number of potential immigrants of the right type for Canada. There has been no real diminution in the number of unemployed, and it is in the northern cities, especially where unemployment is most rife. Estimates show that the number of unemployed is still uncomfortably near the one and a half million mark, and that two or three days before Mr. Robb sailed, Haig made an appeal on behalf of 800,000 unemployed ex-soldiers. These were men, the Earl said, who wanted work, and who it is the men who want work that Canada is looking for.

Canada offers the natural solution, therefore, to the problem facing literally thousands of men having the energy and intelligence to succeed as settlers on our broad agricultural lands.

HOLLAND A FIELD
Holland, Mr. Robb believes, offers another good field. While there he visited the emigration office of the Dutch Government, he inspected the farmers' markets, went into Dutch farm homes. Farm lands in Holland are sub-divided to the limit, and the surplus farm population has no alternative but to drift into the cities, where there is great unemployment. So impressed was Mr. Robb with the possibilities of gaining settlers of the most desirable type, that the Canadian National Railways is opening a branch office of colonization and development in Rotterdam. The position of Belgium, Mr. Robb declared, is altogether different. There is little unemployment in industrial circles, and conditions are generally satisfactory. France actually needs immigration, not emigration. She is short of man power and on this account will not permit emigration propaganda. Mr. Robb, although having only a few weeks at his disposal, has thoroughly covered the territory in which the Department of Colonization and Development is most interested, and is satisfied that in the countries named, with the exception of France and Belgium, there is a large number of people eminently suitable and available for settlement on the land in Canada.

SEES NO EARLY ELECTION IN GREAT BRITAIN
Toronto, Sept. 30.—The prediction that there would be no general election in Great Britain until the introduction of the 1925 budget was made by A. W. Haycock, Canadian-born British M.P. for Salford, in an address here last night. Mr. Haycock is visiting Canada.

Mr. Haycock's address which was given at the inaugural meeting of the Labor Forum, was mainly an eulogy of the MacDonald Government which he contended had accomplished more for the masses of the common people during its short regime than had been done by Liberals and Conservatives in many decades.

Premier MacDonald, he said, was desirous of preventing another war, and was striving to bring about peace and security for all Europe.

The Liberal Party, and particularly

CAN TAKE DENTAL COURSES AT TORONTO

Vancouver, Sept. 30.—Pre-dental students at the University of B.C. will have no trouble entering the dental courses at Toronto, it was announced Monday by Registrar Stanley W. Mathews, who stated that the students taking the first year work at the U.B.C. will be granted a full year's standing at the Royal College of Dental Surgeons. There has been considerable difficulty in the past for students taking pre-dental work here to arrange subjects that have proven satisfactory to the medical colleges. Mr. Mathews stated that he has received a letter which states what courses are necessary at the Royal College.

FIREMEN ARRESTED ON ARSON CHARGES

Toronto, Sept. 30.—Alexander Moore, a lieutenant of the Kennedy Heights, a Toronto suburb, volunteer fire brigade; Robert Warmington, a member of the brigade; and Charles McGrade, a former member, were arrested Saturday on charges of arson and conspiring to burn.

"Worth \$100 to Me Relieved Eczema and Piles"

Mrs. Peter A. Palmer, Saltburn, Sask., writes: "Dr. Chase's Ointment has completely relieved me of eczema and piles. I also used this Ointment for my baby, who broke out in eczema. A few applications were all that was necessary in her case. Dr. Chase's Ointment has been worth a hundred dollars to me, before using it I had spent a great deal more than that in unsuccessful treatment from doctors. We have also used Dr. Chase's other medicines, the Nerve Food having restored my health after suffering from severe nerve trouble when a girl."

Dr. Chase's Ointment
50 cts. a box, all dealers or Edmondson, Mack & Co., Ltd., Toronto

To the Gateway Ports of the World

A Leisurely Journey to Scenes of Ancient Splendor

Who wishes to dash breathlessly around the world in record time? No one who has any regard for comfort! That's just it—comfort and freedom from worry! Wouldn't you like to see the world that way this very winter?

Then come along with this jolly party sailing on the luxurious EMPRESS OF FRANCE, from New York, Jan. 14, for a 130 days' cruise to the Gateway Ports of the World, with 53 days of shore excursions—like going on your own private yacht!

At 27 ports you drop anchor—and many are the interesting exploration trips arranged so that you see everything worth while. The Sphinx and the Pyramids, ancient Italy, Palestine, the Taj Mahal, Sumatra, Java, Singapore, China, Japan—returning via Vancouver and the Panama Canal.

Let us tell you about this extraordinary cruise.

Mediterranean Cruise

Of course you have always wished to see Algiers, the Nile, the Holy Land, Greece, Constantinople and Rome. Here is an exceptional opportunity to visit the fascinating lands of romance bordering the historic Mediterranean, under ideal conditions. 62 days cruise on the magnificent EMPRESS OF SCOTLAND (25,000 gross tons)—her fourth cruise in these waters—perfect arrangements for shore excursions. Leave New York February 9th.

Two Wonderful Cruises to the West Indies

A delightful holiday to the Fairy Lands of the sparkling blue Caribbean. Sailing from New York Jan. 20 and Feb. 21 on S.S. MONTROYAL—60-burner, twin screw, 23,500 tons displacement—excellent accommodation—matchless cuisine and service. To the West Indies, Panama and historic cities in South America. 29 days for each cruise.

Full information about any of these cruises may be obtained from any Steamship Agent or from J. J. FORSTER, GENERAL AGENT, OCEAN TRAF FIG, VANCOUVER

THE BOUNDARY BILL

IRISH EYES ARE TURNED
to the proceedings in the British House of Commons to-day as they have not been turned since the Mother of Parliaments ratified the treaty which ended ages of strife between two parts of the United Kingdom. The Government has introduced a bill which provides for the creation of an Irish Boundary Commission without the participation of Ulster. This has become necessary because the Northern Government has refused its co-operation on the ground that Ulster "has nothing to give away."

Practically the whole of political Britain and the people in general were behind the Treaty; they were glad that a way had been discovered to settle a problem which had baffled the statesmen of centuries. Only in an abstract way were they interested in the religious differences which had estranged and continued to estrange, Ulster and the South. They were obviously relieved when Black and Tanism came to an end and the daily report of killings and burnings no longer appeared in the newspapers. In this mood they contemplate the passage of a measure which is intended to overcome the boundary problem. They are disappointed that Premier Craig has not made possible a settlement of an Irish question between Irishmen; but they likewise agree, for the most part, that in the absence of such an arrangement Parliament must preserve the full intent of the Treaty.

Extremist Ulsterites in England as well as in Ireland—by whom, by the way, all three English parties refused to be hustled in 1921 and 1922—are asking their leaders to grasp at a technical chance of going back on their words. They point to a faultily worded clause which does not fully provide for the carrying out of its own declared intention; it can, in fact, legally be prevented from doing so by the refusal of the Ulster Government to obey the intended commands of the Imperial Parliament which the bill now before the House of Commons authorizes.

The clause was an attempt to provide the fairest possible machinery for marking out a just borderline between Ulster and the Free State. The attempt has now been found technically defective; and the machinery can be thrown out of gear by either Ulster or the Free State. The Free State does not desire to do this. Ulster does; and that is the reason why the British Government intends to give Ireland the full execution of the clause's intention—not imitate the man who paid a debt, and got a receipt, with a cheque not properly signed, and then refused to amend the signature to enable the cheque to be cashed.

HELP THE MEMORIAL FUND

SOMEBODY HAS GONE
to the expense of printing and circulating a handbill which asks the people of this community whether they are satisfied with the manner in which the fund is being raised for the local war memorial. The document also declares that widows and orphans and friends are denied the right of full association with this sacred symbol of remembrance.

It should not be necessary to warn anybody against such a foolish and misleading form of propaganda. The average individual is fully aware, and no doubt feels ashamed of it, that a memorial should have been erected years ago. He also knows that the project will require the contribution of every citizen. In thus helping to swell the fund he will not be moved by the arguments of a few people who are trying to delay matters because the course followed does not meet with their approval.

It took nearly four years to raise a few hundreds of dollars to furnish a memorial to the men who died in South Africa. The people of this city should not allow this unfortunate piece of history to repeat itself merely to satisfy a few objectors.

WILL TAKE HIS SEAT

M. R. FRANK A. BROWNE,
Burnaby's member-elect in the Legislature, has informed the Municipal Council of that riding that he proposes to attend the session of the House towards the end of October. His communication was filed and the Municipal Treasurer has been instructed to call for applications for his position. Mr. Browne is Burnaby's municipal accountant. He was faced with the ultimatum that he could either hold his job by resigning his seat in the Legislature, or obey the obvious wishes of a majority of the electorate in that constituency and end his services to the Council.

The choice which Mr. Browne has made is undoubtedly a courageous one. He has decided to serve in the wider field of public duty at the expense of his weekly pay cheque. We shall hazard the guess that those members of the Municipal Council who seek civic honors at the next election will discover what the voters think of their action towards Mr. Browne.

TOO MUCH ZEAL

ONLY IN CASES OF EXTREME emergency should Government officials resort to the use of firearms. Mere suspicion that a boat is engaged in the bootlegging business is nothing like enough reason why it should be plugged with bullets and its occupants exposed to the danger of serious injury. Human life is too precious to be the target of belligerent zeal.

It would be well if the Department were to advise its officers to keep their heads under all circumstances and refrain from using extreme measures without more than ordinary cause. Mistakes are easily made; but common sense and average intelligence should prevent the risk of their being fatal ones.

CO-OPERATION NEEDED

SUCH UNEMPLOYMENT
as may develop locally during the Winter months can be made less serious if the people of this community will co-operate with the official employment service. It should be assumed by every household and businessman that he has a right to call upon the distributing agency for temporary help and expect to have his wants satisfied if idle hands are waiting. Not all those who register as unemployed will be able to take the first job that offers. Physical limitations have to be considered. As a general sense, however, the man who is capable of doing an ordinary day's work will only have himself to blame if he stands on ceremony and bars a short way to his next meal by personal prejudices or inclinations.

No doubt many people in Great Britain to-day are thinking that Ireland is once more a question. The other day a French aeroplane, carrying ten passengers and all their baggage, flew from Paris to London in 110 minutes—nearly 140 miles per hour. The world is surely moving.

The Kamloops Sentinel produces ancient history from its files and records a shooting trip which Mr. W. J. Bowser made on September 21, thirty years ago. That was before he entered the political field; having now retired from it he is free to take another shooting trip to that pleasant section of the Interior.

CANDID ADVICE FROM A FRIEND

From The Kingston Standard:
The Montreal "New Talker" may not know it, but the fact remains that they are beaten before they start.

NOT FOR TALKING PURPOSES

From The Vancouver Province:
The Prince of Wales is said to wear at least ten different styles of hats. Unlike many less distinguished men he does not talk through any of them.

VALUE OF EXHIBITIONS

From The Halifax Chronicle:
It is estimated that American, Canadian and other tourists have spent seven million dollars a day in London during the Wembley Exhibition, testifying that advertising pays.

BEGIN THE DAY WITH A SONG

Begin the day with a song,
Lamish your woes and tears,
While your gladness notes prolong,
You conquer all your fears.
If the day be dull and dark,
And clouds obscure the sun,
Be happy, sing with the lark,
Until your task is done.
Begin the day with a smile,
Make light the heavy load,
So shorter the longsome mile,
Call it the laughter road.
There's lots of things to be done,
No time for turning sad,
Be sane and happy, my son,
And sing your loudest, lad.
Begin the day with a cheer,
And when it starts to rain,
Forget it and about here,
Old Sol will shine again.
—James M. Macgregor, the Glen Warbler.

DR. FRANK CRANE

ON "CREMATION"

AGAINST the custom of cremating the human body after death the prejudice seems to be lessening. A conference on the subject was held by a distinguished group of scientists, religionists and other workers of life, recently in England.

Bishop Gore spoke in favor of cremation and his remarks were interesting not only because of their intrinsic force, but because of his position as a prelate in the Anglican Church. According to him the only really logical contention against cremation was that it destroyed means of ascertaining whether a person had died by poisoning. From a sanitary and utilitarian point of view the advantages of cremation are so obvious that the strongest position against it is that of sentiment. The Catholic Church carefully excludes theological grounds from those upon which it is prohibited. The chief motive is a reverence for immemorial custom.

The Christian idea of the resurrection of the body does not in any way mean the preservation or reconstruction or recovery of the material particles of the present body, although this idea is implied in the phraseology of the Nicene Creed. The movement in favor of cremation is a part of the movement of sanitation and science against sentiment. Sentiment always holds in connection with the dead and it is very difficult to resist, yet the problem of disposing of dead bodies in large states is constantly growing more acute.

Those in favor of cremation depend upon logic, while those opposed to it are governed by sentimental reasons. The conflict between logic and sentiment is universal and covers every phase of human progress. It takes time to accomplish any real result, and especially when opposition to it is entrenched in the feelings. As far as the resurrection of the body is concerned it would be as desirable to gather the materials from the air, or from whatever place they have been scattered, as it would from the ground. Besides this, the fact that the particles of matter from the dead body go, in time, to the construction of new bodies renders a literal adherence to a bodily resurrection very difficult.

Just what the resurrection body will be is not known. If it will be some sort of clothing for the human soul, but the matter had probably best be left where the Scriptures put it, which was that "There is a spiritual body and there is a natural body."

There can be no doubt, however, that cremation is the most sanitary and scientific method of disposing of human remains.

KNOW YOUR COUNTRY

"KIWANIS"
Q.—What is "Kiwans"?
A.—"Kiwans" is the name of a service organization of over 700 clubs in Canada and the United States, with 20,000 members. One of its chief objects is to promote the best interests of the community in which it exists, and also to promote international good-will.

RUSH-BAGOT TREATY
Q.—What was the Rush-Bagot Treaty?
A.—The Rush-Bagot Treaty was so called, because it was executed by Charles Bagot, representing the British Government, and Richard Rush, the United States. President James Monroe signed it, and John Quincy Adams as the U.S. Secretary of State. It was signed April 28, 1818, and called for the limitation of armaments in the form of naval forces on the Great Lakes.

WORDS OF WISE MEN

Don't be content by taking things as they come. Go after them. Why some people don't get on is because they are always falling off in application. He that raises false hopes to serve a present purpose, only makes a way for disappointment and discontent. To be prejudiced is always to be weak. Men seldom give pleasure where they are not pleased themselves.

WHO'S WHO IN HISTORY TO-DAY

TUESDAY, SEPTEMBER 30
SAINT JEROME
A father of the Latin Church, died at Bethlehem on Sept. 30, 420. During a journey through the Orient he suffered a severe illness, and on his recovery devoted himself to an ecclesiastical life. He became secretary to Pope Damasus, after whose death he entered a monastery at Bethlehem. He published a Latin version of the Bible, known as the Vulgate.

HERNANDO DE ALARCON
Spanish navigator, discovered and ascended the Colorado River on Sept. 30, 1540. Previously he had penetrated the Gulf of California, thus proving that California was not an island.

SIR FULKE GREVILLE
First Lord Brooke, English poet and statesman, died on Sept. 30, 1628. After studying at Cambridge, he became a favorite of Queen Elizabeth and an intimate friend of Sir Philip Sidney. He served as secretary for Wales, Treasurer of the Navy, and Chancellor of the Exchequer.

THOMAS PERCY
English bishop, best known as the editor of "Percy's Reliques of Ancient English Poetry," died on Sept. 30, 1811. After his graduation from Oxford he became chaplain to George III and later was appointed Bishop of Dromore, Ireland.

THE MEMORIAL

To the Editor:—There is at 419 Port Street a room that has been opened for the purpose of receiving contributions towards a war memorial to be erected in Victoria in honor of the memory of those who made the extreme sacrifices during the Great War.

As I understand it, this is a public memorial to which all citizens, one feels sure, would be proud to subscribe. The subscription is well opened by His Honor the Lieutenant-Governor, who gave a donation towards the memorial and thus made it possible for the committee in charge to commence right away with placing their orders—it seems a pity, and a small thing, to quibble about what particular part of the memorial His Honor's generous gift makes it possible to open immediately—his gift is in memory of those who died, and in the spirit in which it is given so is it a part of the whole. If my understanding of the figure alone, but to the memorial; so the contributors do not give to the base alone, but to the memorial.

I only write this because there seems to be a misconception in some quarters and when I called at the above room this morning I was surprised indeed to find that although it was fine and of the morning of fifteen people had been ahead of me. Victoria, this is your memorial to those who did not return—and no one can take this opportunity away from you—and no one can give it to you again.

M. A. W.
Victoria, B.C., September 29, 1924.

PRICE IN ROLE OF REAL FARM LABORER

Seizes a Fork and Works on Haystack Until Dinner Gong Sounds
Calgary, Sept. 30.—The Prince of Wales is thoroughly enjoying his "rest." He rode the range before breakfast on Saturday, stacked hay until noon, shot ducks and pheasants on property owned by one of his neighbors during the afternoon, and then topped off with another horse back ride in the evening. Sunday morning, he was up with the sun. Accompanied by members of his staff, he rode the range in the morning and then shortly before noon returned in time to welcome his dinner guests, Mayor G. H. Webster of Calgary, C. K. Howard of the passenger department of the Canadian National Railway, W. S. Thompson, publicity department, C.N.R., and Mrs. and Miss Helen Carie. The party then spent the remainder of the day walking along the river bank, enjoying a fine "constitutional."

"Topping" was the way the Prince described the week-end in reply to a remark of a friend. REAL LABOR
The heir to the throne received his first taste of real farm labor on Saturday morning. He and his party arrived at the ranch just when the hands were in the middle of haying. After breakfast on Sunday, the Prince seized a fork, and laid a foundation for a stack of hay which sprung up like a mushroom under the combined attacks of the Prince and his staff, assisted by the ranch hands. The sun shone down warmly and before an hour had elapsed, the little stream of perspiration began pouring down the Prince's forehead and neck. He seemed to have enjoyed it, however, for he stuck at his task until the dinner bell went at noon.

FAITH IN MINISTRY

Melbourne, Sept. 30 (Canadian Press Cable via Reuter).—The Central Council of the Victorian Farmers' Union adopted a resolution Saturday affirming its faith in the composite Federal Ministry.

THE WEATHER

Daily Bulletin Prepared by the Victoria Meteorological Department.
Victoria, Sept. 30.—5 a.m.—The barometer, maximum yesterday, 30.8; minimum, 29.8; wind, 8 miles N.; rain, .9; weather, cloudy.

EXPERT THIEVES GET LITTLE FOR TROUBLE

Open Two Vaults, Smash Two Safe Combinations For \$300 in Toronto
Toronto, Sept. 30.—Thieves with an apparently expert working knowledge of vault combinations entered the office buildings of the Dominion Bank, King and Yonge Streets, the Royal Bank, King and Yonge Streets, and Excelsior Life Building, Adelaide and Victoria Streets, over the weekend, opened two storage vaults, smashed the combinations of two safes and got less than \$300 for their trouble.

The puzzling thing is that they were able to enter such large buildings and make their way to different offices and work unobserved. In one instance the vault was in the open corridor. Vaults were opened in the offices occupied by the Manufacturers' Life Insurance Company, the Union Lumbar Company, Featherstonhaugh & Co., and the British-American Oil Company.

The buildings entered are among the highest in the city.
Hamilton, Ont., Sept. 30.—The cases of the fifteen citizens who are accused of conspiring to defraud the city of upward of \$3,000 tax monies through the 60-50, split with a tax office official and two others were adjourned for eight days by Magistrate Jells to-day at the request of the crown. The accused were allowed out on their own recognizance. It is understood that the defence will be that they believed that they were approached by the tax office officials who offered a rebate for payment in full and that they had acted in good faith.

POPE SEES JACKIE COOGAN

Rome, Sept. 30.—The Pope to-day granted an audience to Jackie Coogan, the American child movie star, who is visiting Europe. The Pontiff was highly amused, especially when the youngster, admiring the splendor of the Vatican, suggested that the apostolic palace and St. Peter's Square would make a fine setting for a movie.

After three days of sightseeing the boy actor will be on his way to Naples, and then to the Orient.

BRITISH-TRADE'S HURT BY STRIKES

All Parties Look For Permanent Method of Settling Wage Disputes
Thirty-six Million Working Days Were Lost in Last Five Years

London, Sept. 30 (Canadian Press cable).—Signs are accumulating that all parties in the industrial world are realizing the absolute necessity of discovering some permanent method of settling wage disputes without resort to strikes if British trade is not to suffer almost complete submergence.

Lloyd George declares that 36,000,000 working days were lost through strikes in the last five years. The recent plea by Sir Robert Hadfield, perhaps the greatest living British steel master, for a more reasonable method than the strike weapon, has aroused keen interest. COURTS OF INQUIRY
Tom Shaw, Minister of Labor, in the foreword of a Labor pamphlet just published, announces his determination to establish courts of inquiry into all cases where disputes are likely to inconvenience the public. Mr. Shaw accuses the many strikes to the unduly prolonged nature of negotiation intended to avert stoppage of work but which has rendered workmen distrustful and resentful.

"There is no question," says the Minister, "that arbitration is becoming more and more practicable as a method of settling disputes. For many years it was difficult to convince the working men that arbitrators held the balance even. They suspected the arbitrators already looking at things always from the employers' viewpoint. Gradually, however, arbitrators have been found whose good faith has been beyond dispute. The probability is that arbitration will make more rapid strides in the immediate future."

NEW HIGH RECORD AT B.C. UNIVERSITY

Vancouver, Sept. 30.—A new high record for attendance at the University of British Columbia has been set, according to official figures released Monday night by Stanley W. Mathews, registrar, who announced that there are at present 1,405 students registered. It is expected that almost fifty will be added to this number before October 15, which is the last day for registration for graduate students who are proceeding to their masters' degrees.

POPE SEES JACKIE COOGAN

Rome, Sept. 30.—The Pope to-day granted an audience to Jackie Coogan, the American child movie star, who is visiting Europe. The Pontiff was highly amused, especially when the youngster, admiring the splendor of the Vatican, suggested that the apostolic palace and St. Peter's Square would make a fine setting for a movie.

ROYAL YEAST CAKES

TWENTY-FIVE YEARS AGO TO-DAY

Victoria Times, Sept. 30, 1899

Principal A. B. McNeill, of the North Ward School, and Mrs. McNeill last evening entertained the teachers of the North Ward and Hillside Avenue schools at their home, Spring Ridge. A board of trade for the Yukon has been established in Dawson, according to passengers on the steamer Alpha, which berthed to-day. An excursion to the Mount Sicker mining properties is projected to take place within the next week or ten days, the object being to furnish Victorians an opportunity of realizing the vast mineral deposits of the camp and the work already done.

AT THE THEATRES

MARJORIE DAW'S BOB HAIR TO BE SEEN IN CAPITOL PICTURE

Marjorie Daw's bobbed hair will be seen for the first time here when "Revelation," Metro's big all-star special, showing at the Capitol Theatre. She plays the part of Miss Drevourt, a Parisian artist's model who represents the last word in modern fashion.

More than a year ago, Miss Daw decided to part with a major portion of her long blonde tresses. Since the momentous deed was done, however, Miss Daw has had to wear a wig in every picture in which she has played, because she was appearing as country girls who simply had to have long hair.

Marjorie Daw was born in Colorado Springs, Colorado. She spent a portion of her childhood in New York, after which she moved to Los Angeles. While attending the Westlake School of Girls she became interested in motion pictures. Through the aid of a family friend she and her young brother obtained an entrance to studio work.

As a child actress appearing in small parts, Miss Daw attracted the attention of Geraldine Farrar, the noted opera singer, who was then making her screen debut in "John the Wason." Through Miss Farrar's influence, the little girl was cast for a small part in this production.

At the completion of this picture, Miss Farrar continued her interest in Miss Daw which resulted in her being cast for parts in other Lasky-made productions. Her interpretation of Betty Warren in Cecil B. De Mille's "The Warrens of Virginia," her first important role, induced Lasky to put her under a two year contract.

Then she appeared in five pictures opposite Douglas Fairbanks, namely

HEAVY RAINS THE UP HARVEST RUG

Shortage of Men For Threshing Reported in Western Fields

Winnipeg, Sept. 29.—Heavy rains completely tied up harvesting during the latter portion of last week, according to the weekly crop report of the Canadian Pacific Railway issued this morning. The only exception was in some parts of Alberta. Frost was fairly generally experienced this past week, but very little additional damage to grain is expected as result. In many sections of Manitoba several days of good drying weather will be required before the grain will be in condition for threshing. Previous to this interruption threshing of wheat had started in earnest in the livestock market continues heavy, trading being slack with strong tendency towards dragging prices. Cattle on a whole are going into winter in splendid condition, with the exception of few districts in Saskatchewan and Alberta plenty of feed, both hay and green, has been put up. Work generally is two to three weeks behind normal and it will hardly be possible to get usual amount of fall ploughing done unless we are favored with good weather in November.

LAURETTE TAYLOR DUE IN NEWEST FILM OFFERING

Laurette Taylor, America's most loved actress, made a record of a four years' run in the stage play "Peg O' My Heart." Producers for a long time tried to interest her in the screen and she finally capitulated to the Metro organization. For her first picture Miss Taylor did "Peg" because it was the best known play of the modern theatrical era. It was a smashing success and won for the star millions more of admirers.

Now she has completed her second film offering, "Happiness," taken from her play of that name which was written by J. Hartley Manners, the author of "Peg." According to the latter, "Happiness" even outdoes "Peg" on the screen. "Happiness," which is showing at the Playhouse Theatre was directed by King Vidor, while Mr. Manners wrote the adaptation and Chester A. Lyons was photographer.

ELUSIVE MADAME X SNATCHES PURSES AND THEN WRITES OWNERS

A mysterious Madame X, about thirty years of age, well dressed and pretty who snatches purses, rifles them of their contents and then writes the owners a lecture on carelessness, has been operating in Victoria recently. Now a postmark on a letter received by one of her victims indicates that she is in North Vancouver. The letter is written to Miss Gertrude Ponsford, Normal School student, whose purse was stolen at the Provincial Museum a week ago. It reads:

On Board Princess Charlotte. Miss Gertrude Ponsford—

There is a parcel being mailed to you containing the letters and snaps found in a purse in Victoria.

Hope you will be glad to receive them. Am keeping the purse as a lesson to you.

Madame X.

P.S. Parcel is being mailed to Parkville, Vancouver Island, B.C. Parkville is the home address of Miss Ponsford and the address on letters in the purse.

The mysterious Madame X as she states in the letter keeps the purse contained. A well dressed woman who was seen aimlessly walking about the Museum by the loser of the purse is suspected as the thief.

RALLY AT WESLEY CHURCH

The annual rally of the Wesley Methodist Sunday School took the form of a missionary pageant on Sunday evening. The principal item was taken by Miss Hilda Gray, Victoria, and Mrs. Hollis, Phyllis Williams, Mary Clark, Kitty Daniels and Mrs. L. A. Young. Eight boys of Mrs. Leeming's class had charge of the scriptures, reading and choruses by the primary department, junior girls and the girls' choir were especially good.

Hymns of a missionary character were sung during the singing of the final hymn, "The Whole Wide World for Jesus," little Miss Muriel Barker carried in a globe representing the world, and Miss Hazel de Strickland recited "Little Brown Girl and I." The whole programme reflected great credit on those taking part and on those who so carefully trained the young people. Miss Rachel Daniels (organ) and Miss Ruby Dimmick (piano) played the accompaniments.

MILLIONS LEFT TO CHARITY BY WELL KNOWN ACTRESS

Boston, Sept. 29.—The \$1,000,000 estate which Miss Lotta Crabtree acquired in a colorful career of song and drama, is being divided between the theatre operation, goes to charity under the terms of her will which was filed to-day and half of the sum goes to form a trust fund for world war disabled and their dependents.

Settling aside the nominal sums for relatives, the actress left hundreds of thousands for dumb animals, needy actors and actresses, hospitals and discharged convicts, and the residue to graduates of Massachusetts Agricultural College.

The will establishes a trust fund of \$2,000,000 for those men and women in the service of the United States during the world war who were disabled, maimed, wounded, sick and extends assistance also to their dependents.

MAN SHOT DEAD AT JEWISH FESTIVAL

Los Angeles, Sept. 29.—Harry Denny, was shot dead and a man and a woman were wounded in the Congregation of Zion Synagogue, at "Chiffon" and Glendale boulevards here during Jewish festival services yesterday, when Sol Ostrow suddenly drew a pistol during the ceremonies and started shooting. Ostrow was captured.

ABSCONDING BANK GUARD ARRESTED

Springfield, Mass., Sept. 29.—William J. Hamlin, bank guard of the Union Trust Company, who absconded with \$30,000 in \$20 bills Thursday morning, was brought back to Springfield this afternoon. Hamlin informed a bonding company earlier to-day that he was returning from Chicago with the money. The train was met at Albany by Springfield police and Hamlin was arrested.

MYSTERY SOLVED

Montreal, Sept. 29.—The mystery concerning the origin of the pieces of iron which pierced the roofs of three separate houses on Friday last was solved to-day when it was learned that a circular saw in a factory a block away had broken loose, flown into the air and dragged portions of its support with it.

ONE MAN KILLED IN OREGON LOGGING CAMP

Marshfield, Ore., Sept. 29.—Edward Overstreet was killed and James McEneaney seriously injured yesterday at the Stout Lumber Company's logging camp when a car on which they were sitting was overturned by a tree stump and McEneaney and Overstreet were caught beneath the car.

BRITISH COLUMBIA

Weather mostly cool and cloudy and occasional showers and light frost Macintosh apples are about half in. Jonathan and Winter Hananans are just commencing to be marketed, and on an average are showing good color and quality. Tomatoes are coming in fast and the canneries are working overtime.

EDMONTON DUNVEGAN AND BRITISH COLUMBIA RAILWAY

Weather consisting mostly of rain, wind and snow was quite unfavorable for prospecting and harvest operations and threshing. Several days will be required to dry out the stocks sufficiently to permit work being resumed, and as the crop in some of the districts is short and weedy it is in no condition to stand continued rain and will likely lose considerable of the grade.

INCORPORATED BY ACT OF PARLIAMENT 1857

SHIPPING OFFICIALS VISIT CITY ON INSPECTION TOUR

White Star Passenger Department Manager Says Trade to Old Country From Canada During This Year Was Surprisingly Good and Sees Big Year Coming; Conditions in Canada Point to Greater and Continued Prosperity, He Says.

L. S. Tobin, manager of the passenger department of the White Star Dominion Lines, with headquarters in Montreal, to gether with Harold Robbins, representative for the same company in Eastern Europe, with headquarters in Liverpool and C. P. Sargent, of the International Mercantile Marine, were visitors to this city this morning looking over the business prospects in general, and paying particular attention to the Christmas passenger trade, of which they expect great things from the West.

"I can see no reason why anyone passing through the great prairie land in western Canada, and seeing the immense stretches of unsurpassed wheat crops and the general atmosphere of growth and prosperity pervading the entire country, could be anything but an optimist," said Mr. Tobin, who is immensely struck with the future prospects and the apparent fine condition of the West as a whole. "It is a shame that there has been so much propaganda put out regarding the failure of the crops on the prairies. These reports are baseless. The prairies yield this year has been anything but poor."

CHRISTMAS TRADE
The visitors to Victoria state that they expect to see a large volume of Christmas passenger trade to the Old Country this year. The good crops are largely responsible for this. Money is not so scarce in Canada now as it was some years previous. In fact the conditions are surprisingly better than they were a year ago.

Trade with Europe has been excellent all through the present year, Mr. Tobin asserted. In this statement he was heartily supported by Mr. Robbins.

"There are few places where one could get a better picture of the Empire so graphically laid out as one could at Wembley," Mr. Tobin went on to say. "This exhibition has been a great drawing card for the tourists from all parts of the world. There was the Olympic game series," he continued, "another factor in attracting visitors from all parts, particularly those from within the Empire."

COLLEGE TOURS
"There has come a new thought in travel, so far as European visitors are concerned," Mr. Tobin said, "and large numbers of people who have never before thought of visiting that land of historic fame and old-time grandeur have now seized upon the opportunity—the college tour."

This year is something which attracts people all over Canada. It was primarily intended for college students, but it is open to everyone. There was only one of these tours last year, but this season, starting on June 6 and continuing to July 4, there will be five big European excursions. The passengers are taken to London, Paris, Ostend, Zebrugge, Brussels, the Hague, Amsterdam, Oxford and various other points of interest.

Passengers travel in third cabin class.

President Ito of Japanese Shipping Company Resigns

Tokio, Sept. 30.—The dispute between the Nippon Yusen Kaisha (Japanese Mail Steamship Company) and its foreign officials has been settled, the officials withdrawing their resignations. It is understood that Yonejiro Ito, president of the company, whose policy led to the trouble, will resign.

MACHINERY DEPOT HAD BUSY PERIOD

Twenty-two Ships on Marine Ways During August and September

The Victoria Machinery Depot had a period of activity which is exceptionally good for the months of August and September this year, and handled a great number of repairs on various ships from this and other ports.

The following work was done by the Victoria Machinery Depot during August and September: Canadian Pacific Railway Co., Ss. Otter, boiler repairs; Department of Marine and Fisheries, C.G.S. Newington, new propeller; F. Waterhouse & Co., Ss. Westham, boiler repairs; L. B. Noel Tug Chehalis, dock, clean, paint and repairs; Consolidated Whaling Corporation, Ss. Gray, engine repairs; Canadian Pacific Railway Co., Ss. Princess Patricia, dock, clean and paint; Capt. Bruce, tug Red Fir, engine repairs; Bervin, Steamship Company, Ss. Bervin, boiler repairs; Vancouver Island Towing Company, tug Hope, dock, clean and paint, rebuild stern bearing, hull repairs, made and installed new tail shaft; Auxiliary schooner Peaschawa, dock, clean and paint, engine repairs; Pacific Construction Company, dredge Lee, dock, clean and paint; repairs to hull, cast and supplied new capstan; Capt. Berquist, Ss. Famous (Amur) dock for inspection; Canadian Pacific Railway Company, Ss. Charmer, dock, clean and paint, renewed damaged propeller blades; B. & K. Milling Company, Ss. Graener, boiler repairs; Cameron, Lumber Company, Ss. No. 1, dock, clean and paint, renewed guard and caulked bottom; Canadian Pacific Railway Company, Ss. Princess Mary, dock, clean and paint; Victoria Tug Company, tug Spray, renewed rivets in boiler; Canadian Pacific Railway Company, Ss. No. 2, dock, clean and paint; H.M.C.S. Patricia, dock, clean and paint, boiler and engine repairs, straightened propeller blades; Canadian Pacific Railway Company, Ss. Otter, dock, clean and paint, hull repairs, boiler repairs; Canadian Government Merchant Marine, Ss. Canadian Transporter, dock, clean and paint, chipping rust, straightened frames, drew tail shaft and changed blades, miscellaneous engine repairs.

Sir Henry W. Thornton, K.B.E., chairman and president Canadian National Railways, with officials at inspection of train which carried H.R.H. the Prince of Wales to western Canada. The group consists of: H. H. Melanson, general passenger traffic manager; Colonel Arthur Sullivan, Winnipeg; D. E. Galloway, chief assistant to the president; S. J. Hungerford, operating vice-president; A. J. Hills, assistant to operating vice-president; Sir Henry W. Thornton, chairman and president; J. E. Dalrymple, traffic vice-president; Gerald Reid, legal vice-president; R. C. Vaughan, purchasing vice-president; and Walter Pratt, general manager of sleeping and dining car departments and hotels.

AMERICAN CUTTERS BACK FROM PATROL

Return to Seattle For Winter Rest After Eventful Season

Seattle, Sept. 30.—The cutter Haida of the United States coastguard left Kodiak, Alaska, yesterday for Seattle after a season in the Bering Sea. The cutter Haida in the spring conveyed along the Aleutian Islands and the Komandorski Islands to Asia, three planes of the United States army, two of which completed her Sunday, a circumnavigation of the earth.

The Haida had aboard three native boys received at St. Paul Island, in the Bering Sea and bound for a school at Chemawaw, Oregon. Of the Bering Sea patrol the cutter Algonquin has returned and gone to her winter station at Astoria, Oregon. The cutter Unalga has taken her post at Juneau, Alaska, and the cutter Mojave, which is to go to Bering Sea, is to depart for the last commercial vessel before winter.

Ram Ship Tragedy Reported in East

Fishing Boats Find Derelict and Capsized British Schooner

Boston, Sept. 29.—A tragedy of "Ram Row" was reported here yesterday when the fishing schooners Ingomar and Nathalie Hammond brought word that the British schooner Beryl M. Corkum was sighted, capsized and derelict, off George's Fishing Bank last Friday. She was apparently a victim of recent storms. Whether her crew of six was lost or saved was not disclosed.

SEATTLE SHIPPING

Seattle, Sept. 30.—Among 300 passengers who arrived here yesterday on the coastwise liner H. F. Alexander was Capt. Robert Dellar of San Francisco, veteran steamship operator. Capt. Dellar is visiting the Pacific Northwest on an inspection tour.

The steamship Lancaster arrived yesterday with 1,700 tons of Atlantic Coast cargo for local discharge.

The German steamship Sachsen arrived yesterday with 1,000 tons of general cargo, including steel, steel products and pig iron from Germany and Belgium.

Capt. Yaemon Tomioka, who several years ago made a number of voyages to Seattle as master of the Nippon Yusen Kaisha liner Kawata Maru, was a passenger arriving last night on the liner Yokohama Maru. Capt. Tomioka left yesterday for Los Angeles, where he is to take command of the Nippon Yusen freighter Takasaka Maru, now on her way to that port from New York.

SAN FRANCISCO SHIPPING

San Francisco, Sept. 30.—The Pacific Mail liner President Wilson is due to sail to-day for the Far East with 750,000 in United States \$20 gold pieces and \$400,000 worth of silver bullion for China. Inaugurating an eastbound freight service out of Pacific Coast ports to Jacksonville, Fla., the Munson McCormick Line steamer William A. McKenney is scheduled to sail from here to-day with general cargo for Jacksonville and lumber for other Atlantic ports.

DAMAGE HEAVY IN MARYLAND FLOODS

Baltimore, Md., Sept. 30.—Floods caused damage which may run into six figures, accompanied the storm which drenched Baltimore and neighboring communities to-day and yesterday.

Baychino Arrives At Quarantine For Inspection To-day

Dr. Chester P. Brown stated to The Times this morning that the steamer Baychino, from Arctico waters, would arrive at the Williams Head station some time this afternoon. He expects that the ship will be detained for some time owing to there having been word received of a case of smallpox aboard. The vessel carries the crew of the ill-fated ship Lady Kinderley, the Hudson's Bay vessel from Vancouver, which was caught in Arctic ice, and which is now thought to be a total loss.

For days these men suffered from the grip of the frozen waters. There was no apparent means of escape. They tried desperately on several occasions, but on each attempt suffered disappointment and returned to their ship. At last, taking their lives in their hands, they made a dash for liberty and with the assistance of Eskimos, were successful in gaining the U.S.S. Boxer, which carried them to safety.

Show Reluctance To Charter Now

Oriental Lumber Strong But Inter-coastal is Softening

San Francisco, Sept. 30.—Still greater firmness in the European grain section, especially for line business, more strength in Oriental lumber, a softening in intercoastal lumber, were the main developments in the Pacific Coast freight and charter market last week.

A general tendency to await developments of the next few months, instead of committing themselves forward business, is observed. Especially are the owners reluctant to deal in futures in trade parcels have been booked in the United Kingdom and Continent at prices probably could be repeated. Quite a little business was taken at the figure edged up. At least 33 shillings 3p has been paid on full cargoes, and with smaller volume, and asking better terms, the upward trend is unchecked.

Charter Market

San Francisco, Sept. 30.—The Dutch stamship Aalsum has been chartered, barkey, San Francisco to the United Kingdom and Continent at private terms, option North Pacific to the United Kingdom and Continent, wheat, by Balfour Guthrie & Company, November loading. The Aalsum sailed from Newcastle, England, August 28, and from Balboa September 20.

WAIT ACTUALLY TO CLEAR HARBOR OF DANGEROUS BOOMS

Inner Harbor Association Communicates With Minister

Following a meeting of the Inner Harbor Association of Victoria, a letter from that association has been sent to the Minister of Marine and Fisheries, the Hon. P. J. Carlin, in connection with the difficulties encountered in navigating in the harbor because of booms of logs.

The communication is as follows: "I beg to state for your information that the principal trade of the Port of Victoria is the manufacture of lumber and that incident thereto is the towage of very large quantities of logs in booms over the harbor, which are situated and circumscribed waters of the Harbor, as per enclosed map.

THE RESOLUTION
"At a meeting of the Inner Harbor Association, organized some twenty years ago, for the systematic improvement of the Harbor with a view to securing free and safe navigation for all vessels entering the port, general transportation facilities and the trade and industries of the port, the following resolution was passed: That the Minister of Marine and Fisheries do authorize the Harbor Master to select and fix certain positions in the Harbor as per Section 5, where dolphins may be driven which may be fastened temporarily, in accordance with Section 8, and follow-up Sections of the Regulations of the Government of Public Harbors in Canada, and to collect such annual fees as may be approved under Section 3, for the use of this money in the formation and maintenance of the anchorage so formed and established.

"The rapidly growing trade of the Port is making the promulgation of this regulation of the traffic of the Harbor of Victoria a matter of urgent necessity, which this association begs to urge on your most favorable consideration."

This was signed by T. C. Sorby, Secretary of the Inner Harbor Association.

EXPRESS COMPANY HAS FINE RECORD

Dominion Express Establishes Unique Claim For Efficiency

Winnipeg, Sept. 30.—Four thousand nine hundred and ninety-nine express parcels delivered safely without a single claim for loss or damage, as against one for which a claim was made in the Dominion Express Company in the whole of Canada for the month of August, 1924.

This statement was made by T. H. McDonnell, vice-president and general manager of the company at a dinner given in the Royal Alexandra Hotel Saturday night, attended by the officers and staff of the Winnipeg headquarters. It was a get-together meeting in which the general officers complimented the staff and the employees for the splendid record now being made in making records that have never been equalled by any other express company on the continent. Mr. McDonnell stated that for years it had been the aim of many express companies to force the claims for loss and damage down to one in 1,000, the Dominion Express Company had not for many years been higher than one in 2,500 and effect of this splendid record is that the record is now the talk of express and other transportation companies the world over.

John Cackhall, manager of the financial department of the company, gave a talk on the various kinds of financial paper issued by the Dominion Express, foreign cheques, foreign postal remittance, Chinese cheques, etc., tracing in an interesting manner, in which remittance so made got to those for whom they are intended in the most remote and un-expected quarters of the globe, not the least of which is the work of the Chinese runners who carry the remittances hundreds of miles inland in China, the simplicity and efficiency of the company's self-identifying travelers' cheques as a very convenient method of carrying travelers' funds was interestingly outlined.

NOTICE TO MARINERS

Mariners are notified that the un-derlying light maintained by the Department of Marine at Crofton, B.C. is reported out of order. This will be attended to as soon as possible.

Mariners are warned that owing to the construction of a bridge over the Second Narrows, Vancouver Harbor, and obstructions in the fairway, it is dangerous for vessels to attempt the passage of these Narrows in foggy weather or when the visibility is less than 600 feet.

MONTREAL FEELS NAVY OFFICERS

French Canadians Regard Senior Service as Guarantee of Their Liberty

Montreal, Sept. 30.—French-Canadians regard the "glorious British Navy" as a guarantee of their liberty, knowing full well that the flag which accords them that liberty is protected and maintained by the Empire's senior service, Senator C. P. Beaubien declared last night when the city of Montreal entertained the officers of H.M.S. Calcutta now in port at a dinner and dance.

Lieut.-Commander the Hon. Alexander Ramsay, husband of the Princess Patricia and commander of the cruiser, headed the officers in the absence, through illness, of Admiral Sir James Ferguson, K.C.M.G., vice-admiral in command of the North American and West Indies Squadron. Members of the copular corps, mayors of neighboring municipalities, officers of the Fourth Military District, members of Parliament, members of the Legislature and representatives of the civic administration constituted the gathering.

"We have never forgotten our liberty," said Senator Beaubien, "and that has been allowed us under the British flag. We are permitted to remain French in heart, in tongue, in our laws, and in our mind. That has all come with the British flag, and the British flag has been maintained for years by the glorious British navy."

Commander Ramsay fittingly replied. "The recovery of wreckage from the freighter Clifton and sighting of the recovery of the bodies of twenty-eight men, officers and crew of the ill-fated vessel. Search is centered on the Canadian shore, where it is believed the bodies, none of which have been recovered early to-day, will be carried."

Reports that wreckage had been found were received last night by General Manager E. Schneider, of the Progress Steamship Company, owners of the Clifton. A forward end of a pilothouse and broken hatch covers picked up Saturday about eight miles off Gledrich by Captain Hudson of the steamer Glencairn, were parts of the Clifton, Mr. Schneider said.

The complaint of George E. Johnston, M.P.P. of Melfort, Sask., with regard to the taxes on a residence on Dallas Road, which was discussed at length in The Times last week, was before the City Council last evening and referred to the city treasurer and tax collector for report.

Bringing in the Yuletide log was a feature of the Christmas festivities a number of years ago, but the people of those days hadn't the same opportunity of welcoming visitors from across the seas as your friends in the Old Country have now. In connection with the Christmas sailing special trains running on fast schedule to the ship's side. Special cars from the coast to be consolidated in these special trains at Winnipeg. Representatives of the company will travel on these "specials" to see that every need of the passengers is met. Information, reservations, etc., from City Ticket Office, 811 Government Street, telephone 1242.

SEARCH FOR BODIES ON CANADIAN COAST

No Word of Any of Crew Believed Lost on Freighter Clifton

Cleveland, Ohio, Sept. 30.—With the recovery of wreckage from the freighter Clifton and sighting of the recovery of the bodies of twenty-eight men, officers and crew of the ill-fated vessel. Search is centered on the Canadian shore, where it is believed the bodies, none of which have been recovered early to-day, will be carried.

Reports that wreckage had been found were received last night by General Manager E. Schneider, of the Progress Steamship Company, owners of the Clifton. A forward end of a pilothouse and broken hatch covers picked up Saturday about eight miles off Gledrich by Captain Hudson of the steamer Glencairn, were parts of the Clifton, Mr. Schneider said.

Other wreckage was sighted by the captain of the steamer Minch, fourteen miles southwest of Thunder Bay and by the tug Falcon, thirty-five miles southeast of Alpena, Mich., they reported.

The complaint of George E. Johnston, M.P.P. of Melfort, Sask., with regard to the taxes on a residence on Dallas Road, which was discussed at length in The Times last week, was before the City Council last evening and referred to the city treasurer and tax collector for report.

Sedate Washington Wid Over Pennant

Thrill of Capital's First Victory in American League Penetrates Even to White House and President Coolidge Sends Congratulations to Stanley Harris; Everyone Talking Baseball in Capital To-day; Will Crown Heroes

Washington, Sept. 30.—Debonair Washington celebrated last night in Main Street fashion its first American League pennant. A driving rain could not dampen the enthusiasm. Water soaked street urchins were no more excited than dignified governmental officials.

A pouring rain throughout the afternoon found the usual crowds in front of the half dozen score boards. Muffled in rain-coats or from under umbrellas the Washington fans, thousands of them, forgot the wet and rooted like college boys.

A wild outburst of cheering and shouting greeted the flash that told of Washington's victory over Boston—and the pennant. Umbrellas were tossed in the air, traffic cops forgot traffic and the White House stopped the wheels of government to send a telegram of congratulations to the Washington team.

Over the city last night the baseball talk was humming. Cigar stores, hotel lobbies, fashionable cabarets, everywhere it was baseball. The sandlot spirit of Main Street held the city.

Washington, excited and happy, gurgled like a two-year-old over his first toy.

Chicago Bumps Off Detroit and Saves A Severe Disgrace

Replay of Sunday's Game Results in Tigers Fooling; Pirates Defeat Chicago

Chicago, Sept. 30.—Chicago beat Detroit in a farcial game yesterday to close the season. The score was 15 to 5, and Detroit players loafed through the game. Manager Cobb was not present here, some home fans were not present here, and the fifth will also be taken here and the sixth will be in Washington. The sixth for the seventh and final vote, unless a tie results, will be decided by the much-sought-after Delly, the little god of chance.

New York, Sept. 30.—The King is dead, and the king-makers are at work behind the scenes, preparing for the world's series' convention, which will name his successor.

John McGraw will nominate the Giants' candidate of the National League, Stanley Harris, newcomer in diamond politics, will direct the campaign for the American aspirant, Washington.

Delays of the diamond congress will begin in the Capital City on Saturday, continue through Sunday, after which the struggle will be continued in New York. If more than four ballots are necessary, the fifth will also be taken here and the sixth will be in Washington. The sixth for the seventh and final vote, unless a tie results, will be decided by the much-sought-after Delly, the little god of chance.

New York, Sept. 30.—The New York Giants have the edge on their world series rivals, the Washington Senators, when it comes to offensive and defensive ability of their respective infields, a comparison of the two clubs, based on the latest averages shows.

These figures are based on the first line troops of the Giants before several major casualties had occurred in the closing stages of their campaign, but they are conclusive. They show that the Kelly-Frisch-Jackson-Groh combination of the National League champions has a combined fielding average of .8725, as compared with .56925 for the Judge-Harris-Peckinbaugh-Bluse quartette. At the bat the Giants' four have an even more decisive margin, showing .399 to .287 for the Senators.

Kelly and Judge are nearly on a par, although the former is a harder hitter; Frisch excels Harris both at bat and in the field; Peckinbaugh has the edge on Jackson in experience only, while Groh is much abler than Bluse.

Calculations, however, may be upset by the inability of the Giants to bat in the field; Peckinbaugh and Groh is on the doubtful list. In addition, McGraw has indicated he may shift Kelly, who has filled in at first base, to center field and play Terry at first. Lindstrom, eighteen-year-old schoolboy, is first string substitute for Groh. Thus, with Terry at first, Kelly or Frisch at second, Jackson at short and Lindstrom on third, the Giants would not look so formidable as the figures show.

Browns Only Orphans St. Louis, Mo., Sept. 30.—While fans generally expressed satisfaction to-day over Washington's victory in the race for the 1924 pennant, it was generally mentioned that the Browns now are the only team in the American League that have not won a pennant.

Washington's victory served to recall the days of 1922 when "the Browns almost won a pennant." They lost to the Yankees by a margin of one game.

How They Stand PACIFIC COAST LEAGUE

Table with columns: Team, Won, Lost, Pct. San Francisco 98 82 54.4, Seattle 85 84 53.1, Oakland 84 87 51.9, Los Angeles 82 88 48.3, Vernon 88 93 48.9, Portland 84 95 46.9, Sacramento 78 101 43.6

DEFENDING HIS TITLE Los Angeles, Sept. 30.—Johnny Adams, Pacific Coast lightweight champion, will defend his title for the fifth time within two months when he meets Sammy Mandell, Rockford, Ill., lightweight boxer, in the main event of the Vernon arena's weekly programme here to-night.

Tony Puente, heavyweight, will meet Jack McGreer of San Fernando in the semi-windup.

final games, a double-header between the New York Yankees, dethroned champions of the American League and the Athletics, being cancelled.

Chicago, Sept. 30.—President Johnson of the American League last night selected Tom Connolly and William Dineen as the American League's umpires in the world's series, starting in Washington next Saturday. Connolly, a veteran of twenty-four years' service, has officiated in six world's series.

Buffalo, N.Y., Sept. 30.—Frankie Schell, Buffalo, welterweight, out-pointed Augie Ratner of New York in a six-round bout here last night.

Milwaukee, Wis., Sept. 30.—Pete Sacramento, Filipino featherweight star, and Jessy Sangster, Milwaukee, were matched yesterday to box ten rounds before the Cream City A. C. here Monday, October 6. The weight will be 124 pounds at 8 o'clock.

Fort Worth, Texas, Sept. 30.—Fort Worth yesterday won the sixth game of the Dixie series from Memphis in a hard hitting game. This is the third straight game the winners of the Texas League have taken from the Southern Association champions, who have two games to their credit. The first game resulted in a tie. The teams will resume the series Wednesday at Memphis.

Wards to Meeey A meeting of the North Wards' football team will be held to-night at 8 o'clock in the Metropolitan Billiard Parlors. All players are requested to be present as the team for Saturday will be picked.

Winnipeg, Sept. 30.—The fine points of tennis were well demonstrated to local fans yesterday, when the visiting Australian Davis Cup team played a series of exhibition matches before a large gallery. Pat O'Hara Wood was the outstanding player yesterday, defeating Gerald L. Patterson 6-3, 6-4. G. L. Patterson was the victor in the other two matches.

Amateur Baseball Makes Barrels of Money This Year

B.C. Amateur Baseball League Made so Much Money it Gave Presents Away

Victoria League Will Share in Profits; Courtenay Series a Loss

Vancouver, Sept. 30.—Celebrating the most successful season in the record of amateur baseball in the Province, both in player and financial standpoint, officials of the British Columbia Amateur Baseball Association have wound up activities for the year.

After reporting a surplus and kind words had been passed about everybody who had anything to do with the season, the executive decided to show appreciation to the men who were chiefly responsible for its success at a meeting held on Saturday.

Besides a vote of thanks put by J. A. Courtenay of New Westminster and Joe Baker of Vancouver, a donation of \$300 was voted to Stan Smith and a suitable present will be purchased for President Tom Davis.

PLENTY OF MONEY The presentation is to be made at a baseball function to be held early next month. The official scores were given an extra contribution of \$100 each, while it was also decided to secure prizes for the touring teams of last year and the Hammond Cedars of this year, respective champions of the past two years.

President Davis thanked the executive for the best activities with and without the season a real winner. Checking over the heavy accounts for the year was the principal business of the financial report showed that the association, leagues and clubs have had a great season. The association, for the first time on record, has a balance sheet of \$700 to start next year's activities with and leagues and clubs have also been well treated in their share of the gates.

The Association secured one-third of the total receipts, which amounted to about \$2,200, but with expenses, loss on the island series and various incidentals in conducting the series the profits have been out to about \$700.

TO PROMOTE GAME The officials feel so optimistic over the returns that part of the funds may be turned over next year to promote baseball among the Sunday schools or among the youngsters on the corner.

The financial statement shows a gross profit over expenditure of \$1,242.22. Actual operating expenses were \$468.58. The total profit on the play-offs totalled \$1,959.17. Affiliation fees totalled \$205. The largest debit item is \$400, loss in Courtenay series, where team expenses were high.

The Courtenay-Victoria series for the island championship showed a loss of \$2,000. The Courtenay-Liberal-Carleton series produced a profit of \$250 for each of the Vancouver League, Twilight League and the association.

The New Westminster League, Terminal League and the association each took \$122 out of the Hammond-Vancouver Engineering Works series. The Vernon-Liberal series just about broke even with about \$15 to the good. The one game between Cloverdale and Hammond gave about \$75 profit, which was split three ways. The first round of the city championship between Carlton Centre and Vancouver Engineering Works was worth about \$21 to each league and the association.

The Hammond-Young Liberal games were the big money-makers. The New Westminster League, Vancouver Senior League and the association each got \$1,225 out of six games.

The city championship final between Carlton Centre and Liberals had a profit of \$285.55 of each league and the association. The final between Victoria and Hammond, three games, gave the New Westminster League, Victoria League and the association each \$301, despite a very small gate at Victoria. Receipts from the Victoria games for the entire play have not yet been turned in to the secretary.

Those present besides the president and secretary were: Westminster, J. A. Courtenay and P. D. Picken; Victoria, W. L. Lorimer, J. Pinner, A. W. Courtenay; Vancouver Senior League, A. R. Dingman and R. M. Miller; Twilight League, D. T. Kendall; Manager, Bureau of Hammond Cedars and Bob Brown.

Australian Davis Cup Team Performs On Winnipeg Courts

Winnipeg, Sept. 30.—The fine points of tennis were well demonstrated to local fans yesterday, when the visiting Australian Davis Cup team played a series of exhibition matches before a large gallery. Pat O'Hara Wood was the outstanding player yesterday, defeating Gerald L. Patterson 6-3, 6-4. G. L. Patterson was the victor in the other two matches.

Tired Business Men Advised to Join Y Classes

Y.M.C.A. is Putting on Membership Drive and Hopes to Help Men to Health

W. McGuire, Physical Director of Association, Gives Some Pointers

In an effort to build up the membership in the Y.M.C.A. a drive is being held by the association this week, and it is hoped that several hundred members will be added to the strength.

The officials of the "Y" are planning a great winter programme, and are desirous that as many men participate in it as possible.

When asked this morning to give his views on "How can I keep fit?" Walter McGuire, the energetic physical director of the "Y," has some interesting comments to make.

"Careful," said McGuire, "you cannot dream yourself into a character; you must hammer and forge one yourself," remarked Mr. McGuire. "Paraphrase that along physical lines and read. It needs more than the memory of the willow days of youth to keep one's fifth under control. A lot of our men are in a state of nervousness and the thirty and forty-year mark—just in the prime—physical machinery that has been 'taking them all on high,' though driving along under constant strain, commences to show weak spots, and like a long-used car, the motive power begins to develop 'knocks.' What are some of the symptoms?"

HOW THE TROUBLE COMES "Sitting at his desk develops a 'crick' in his back. Reading causes headaches, hustling for a street car produces a startling shortness of breath. Late hours bring exhaustion. Excitement over a business deal sets the old heart beating at a tremendous lick. Personal magnetism and power of concentration are 'all shot' because of nervousness and excitability.

Generally, however, before the sanitarium gets him, he calls for a stock-taking, possibly stimulated thereby by a palpitation of the heart, following the old boy's re-union or the college alumni annual. Most men strive to check up before old General Breckenridge arrives.

"Your hard-headed business man knows what he wants and is seldom interested in the waddy advertisements for health cures or nostrums. If he is 'from Missouri' when making his business plans, he is equally from the home of the mule when arranging for his rehabilitation through taking down the old wale line, and again putting his chest on the map.

THE SECRETS OF NATURE are open secrets, and no master key is needed to solve them. When our predecessors were hoodling over valves, sealing peeks, and striving by means of a club and a stone knife to 'bring home the bacon,' at the same time that they thoughtfully had been made the main item in the meat course for some other chap, plenty of the vigorous kind of exercise was all in-the-day's work.

"The human engine to-day is practically the same as that which powered the Neanderthal man. Ever stop to think that scarcely an improvement has been made or found necessary in the last thirty or forty centuries?"

"Mr. Local Business Man—if you have followed me so far—here's a 'tip' indicated as a header. Vigorous exercise to the perspiration point, on golf course, mountain side or stream. Fresh air by day and night, wholesome food, lots of water—inside and out—avoid worry.

"If lack of time precludes the mountain climb, or the eighteen holes of golf, and if the rolling main is too chaff to enable you to secure a reaction the same day, get busy indoors. For your own peace of mind and health's sake, join the Y.M.C.A. gymnasium classes and we will do you good."

REDDICK IS MATCHED Winnipeg, Sept. 30.—Jack Reddick, Canadian middleweight champion, will meet Ted Jamieson of Milwaukee here on October 21, it was announced yesterday.

Jamieson has met Jack Renault twice, losing the first bout in Boston and winning the second on a foul at Grand Rapids. The Milwaukee fighter has also tied up with Gene Tunney twice, going the limit each time.

ARE YOU LOSING YOUR HAIR? The present increase of baldness is largely due to carelessness and neglect, and persons bothered with dandruff or itching scalp are urged to immediately begin the use of Newbro's Hercoline. Hercoline is an antiseptic hair saver of proven merit. On sale at all drug counters.

GOOD, CLEAN MILLWOOD Delivered in the City Phone 293 The Moore-Whittington Lumber Co.

ROGERS HORNSBY

St. Louis, Sept. 30.—Rogers Hornsby, Cardinal second baseman, took a place beside the greatest hitters in baseball history yesterday. In the season closed here on Sunday Hornsby established two new records, one in batting average and the other in leading his league for the fifth consecutive season.

Hornsby finished with a total of 227 hits in 142 games, making a season's average of .3151, four points above George Sisler's mark of two years ago. Sisler had an approximate .420 average, which tied Trux Cobb's record set in 1911, the high water mark of modern baseball.

The previous consecutive year's batting record was held by Honus Wagner, who led his league for four successive years.

Renault Likely To Be Next Man To Meet Dempsey

Veterans of N.Y. Sporting Critics Says Canadian is Better Now Than Willis

Montréal, Sept. 30.—Jack Renault, Canadian heavyweight, will in all probability be the next man to fight champion of the world, the belle of two of New York's most experienced sporting writers, W. O. McGeehan and Robert Maher, who were in Montréal over the week-end.

They are convinced Tex Rickard had Renault in mind when he refused to commit himself regarding a match between Dempsey and Harry Wills following Wills' victory over Firpo a few weeks ago.

"Renault," said McGeehan, "can beat Wills right now, but he is not ready yet to meet Dempsey. It is a question, however, of a year or eighteen months before he will be ready to meet Dempsey, and when he does, it will be the battle of the century."

MOTORBOAT PATROL RESCUES SURVIVOR OF DROWNING TRAGEDY

Windsor, Ont., Sept. 30.—Clinging to a survivor's stake and in an exhausted condition, a young man was picked up at the head of Lake Erie early yesterday by a motorboat patrol. From the few remarks that he was able to make it was gathered that a party left Amherstburg late the previous night in a motorboat which capsized throwing the occupants into the water. Two women were in the party were drowned. The rescued man when picked up was unable to speak and was too dazed to know what had happened. First-aid was rendered and it is expected that he will recover. The identity of the party is unknown.

RED DICK IS MATCHED Winnipeg, Sept. 30.—Jack Reddick, Canadian middleweight champion, will meet Ted Jamieson of Milwaukee here on October 21, it was announced yesterday.

Jamieson has met Jack Renault twice, losing the first bout in Boston and winning the second on a foul at Grand Rapids. The Milwaukee fighter has also tied up with Gene Tunney twice, going the limit each time.

DAVID SPENCER, LIMITED

VANCOUVER CAR MAKES LONG VOYAGE.—Many tourists from Canada and the United States now tour Europe in their own cars. Shown here is an American-made car, purchased by a Canadian in Vancouver, in which he toured across the continent from Vancouver, B.C., to New York City, and in which he is now touring in England. The photograph, taken on the Cunard line pier, shows the secure manner in which the car was crated just before it was lifted into the hold of the steamship Aquitania, on which it accompanied its owner to Southampton to be used on a tour of Europe. The car was completely encased in a box lined with waterproof paper.

MOVIE ACTOR'S BEAUTY MARRED.—A festered tooth cost Pat O'Malley \$10,000, when it was yanked out by the dentist and caused him to lose an engagement for a film production in which he was to appear. A toothless leading man is of no use in a photoplay and it was learned that it would take a few weeks before Pat's smile would look normal again.

HAS QUEER IDEA TRAVEL.—An attempt to sail around the world in a twenty-four-foot sailboat, a converted lifeboat with a small box-like cabin, is being made from New York by Dimetrios Sigelakis, twenty-six, a seaman from the Island of Crete. Sigelakis, who built his boat in Hoboken at a cost of \$2,400 and brought it to the Battery, said he was inspired by a dream to circle the globe in a one-man boat.

FORTY-EIGHT WENT IN—BUT ONLY TWELVE CAME OUT.—Here is the entrance to the Kemmerer Coal Company's Mine No. 5 at Kemmerer, Wyo. Forty-eight men went in to work—but only twelve of them now live to tell the story of the explosion that wrecked a portion of the shaft. Rescue parties are seen going in.

HE WAS TOO INQUISITIVE!—"Pirate Pete" had things pretty much his own way for twenty years. Farmers along Lake Prien, in southwestern Louisiana, would see him sneak up and kill off their pigs. But the big 225-pound alligator always succeeded in eluding them on the way back to his lair. The other day, though, he grew curious when he heard a lot of noise around. And that was his undoing. When he shot his head up through the sand, a lasso tightened around his jaws. Now "Pete's" making all the farms down south.

CANT BE DOWNED.—Miss Vera Michaels had to leave Russia with her family when revolutionists started shooting up the nobility. Instead of becoming a lady in waiting to the Czarina she became a college girl in America—at Radcliffe. She's just won the highest position there for herself, being elected president of the Student Government Association and making Phi Beta Kappa.

ROYALTY SMILES.—"Crown him" to a bricklayer is supposed to mean hurling a brick. But it means a royal skypiece for Joseph H. McNally, "King of the Bricklayers" of New York. McNally is credited with laying or superintending the laying of 27,000,000 bricks. His mates recognized his position by presenting a studded crown.

HAS NO HOME.—Rosebud Young, daughter of Courtland Young, millionaire publisher, and Mrs. Dorothy Campbell Young, former Follies girl, for whose custody both parents are fighting in court. The judge threatens to take the child from both and place her in an institution.

CAUSING ALL THE FUSS IN CHINA.—General Wu Pei-Fu, pictured above, has ruled as a military power in China since he defeated the armies of Marshal Chang Tao-lin war lord of Manchuria, in 1922. But after two years of preparation, Marshal Chang is on his way southward again against Peking. Inset is Dr. Sun Yat Sen, who, in the South, is threatening to bombard the city of Canton and has warned all foreigners in the city to remain indoors.

BANKERS' CHIEF.—From Irish immigrant boy to president of the American Bankers' Association will be the career of William E. Knox, rounded out at the meeting of the Association in Chicago, September 26 to October 3. Knox now is vice-president of the Association and will succeed to the highest office. He is president of the Bowery Savings Bank, New York City.

"YOU'VE GOT ALL AFTERNOON."—"Wait your turn" is the order for bus riders on bright Saturday afternoons in New York. The bus is a combination tally-ho, lovers' roost and sun parlor for thousands, and after the noontime office closing crowds gather quickly at Washington Square for the long ride up Fifth Avenue and beyond.

THEY'RE BUYING THEIR 1925 HATS.—In speedy New York they already are selling straw hats for next season's wear. Over in Second Avenue, discarded straw lids of the present semester gathered up by enterprising sidewalk merchants, are being sold at the curb for twenty-five cents each. Moth balls and tar bags will help them weather the Winter and next Summer they will come from their hibernating spots, ready to protect a pate from a Summer sun. You can buy anything from shoestrings and toys to gold bricks and bedroom furniture on the sidewalks of New York.

SASKATOON DENTIST MISSING.—Dr. R. I. Hotham, dentist of Saskatoon, who has been missing from his home since September 14. His friends fear he has been murdered. On the day of his disappearance he went motoring alone, and it is believed he was killed for the sake of a valuable diamond stickpin he was wearing, his money and his car.

LADY LUCK RODE WITH HIM.—Lady Luck surely must have been riding alongside Charles Novotny, chauffeur for the United States Forest Service, when his truck got smashed up in San Fernando, Calif. He was hauling 800 pounds of T.N.T. That was more than enough to wipe the town off the map. But, through some freak of good fortune, it didn't happen.

MY GOSH! WHATS THAT? IS THAT A GHOST?

NAW, THATS RALPH DE ROSE. HEARS HIS AIR FEATHER. HE WROTE UP THE OTHER NIGHT AND THERE WAS A BIG BIRD PERCHED ON HIS BEDSTEAD, AND HE GRABBED FOR IT. BUT ONLY GOT ONE FEATHER. IT DISAPPEARED—JUST EVAPORATED. BUT WHEN HE WEARS THE FEATHER, HE'S TORNED INTO AIR, AND YOU CAN STICK A DICK RIBB THROUGH HIM.

THROW A STONE THROUGH ME, WERS. GO AHEAD.

Suggestion to Permit Municipalities to Consolidate Management

Should there be optional powers given to municipalities to co-operate for the management of police forces, contributed to on a per capita basis, and controlled by a standing joint committee of the councils interested? This question was submitted to the City Council last evening in the form of a letter from the city solicitor stating that the matter had been discussed with him by Alderman Todd and the general principle outlined. A joint meeting was suggested by Alderman Todd, to talk the whole question over, in view of the attempt to consolidate the police force for Greater Vancouver. He believed in a similar force for Greater Victoria. He voiced an objection to the suggestion of a provincial force, absorbing the municipal police in British Columbia. Alderman Sangster seconded, and the motion was adopted unanimously. Copies are to be sent to each of the district municipalities. Alderman Marchant stated he did not expect any results to accrue, as the district councils were under police. He favored large areas of administration, such as a provincial unit. The subject, he stated, would have come up at the Union Convention at

Northwest Sewer Issue is Still Source of Irritation

That Saanich was always ready to look after any revenue coming to it but none too ready to offer to meet just obligations to the city was observed by Alderman Sangster during the City Council last evening to a motion with regard to the sharing of license fees to municipalities by daily-hos. "I would say to Saanich: 'You have not tried to secure the necessary legislation to enable the Council to pay the Northwest sewer debt,' and I would give no concessions until a settlement is reached." Alderman Todd had asked the Council to add a clause to the license section of its private bill, by which power would be given to the Council to share with neighboring Councils the necessary expense of larger license fees. He said it had been raised as an issue by the Reeves and Saanich's contention with daily-hos and similar large vehicles, which used the district roads. Alderman Sangster pointed out that such a clause might cut another way, in that Saanich buses were operating in Victoria, over Victoria streets. Alderman Andros said that co-operation in connection with the Brentwood road, whose improvement was a matter of urgency. Alderman Sangster pointed out that Saanich made no effort to secure the necessary legislation to give effect to a contract which had been signed by it, and hence no settlement had been reached after many years regarding the Northwest sewer. "Why don't they pay the bill?" queried Alderman Sangster. "I will tell you in a few words," answered Alderman Todd. "The Northwest sewer is popular in Saanich as Elk Lake golf links are in Victoria." The motion was lost on a division.

PROS AND CONS FOR CHANGE OF 'FOUL BAY' NAME

By a vote of seven to two the City Council last evening approved the principle of changing the name of Foul Bay Road and Bay, and to ask the city solicitor to advise them on the best course to give effect to the change. For the proposed change F. Napier Denison, of Gonzales Observatory, wrote affirmatively on lines similar to his letter to the Press, the superintendent praising the choice of the name Gonzales, by Alderman Woodward. Against the proposal was Francis H. Ross, of Eberts Street, who pointed out that both his grandfather and father had been property owners in the district, and he saw no adequate reason for the alteration. Mr. Denison stated that many people who had marvelled at the beautiful view from the observatory wondered at its inappropriate name. Alderman Woodward formally moved the resolution in favor of changing the name to "Gonzales" Bay and "Gonzales" Bay Road, the latter being in the power of the council, the other a matter for the Geographic Board of Canada. It would be quite easy, Alderman Marchant said, to effect a change of the small road or avenue "Gonzales" in the Pemberton estate, where no houses at present existed. Alderman Woodward declared that the majority would favor the change. Mr. Pemberton would not object, it was stated. The Mayor said he was opposed to the change, and Alderman Andros declared there was no petition for change, which should come first. The latter thereupon moved an amendment, which collapsed for lack of a second. On the division only Alderman Andros voted with the Mayor in opposition.

CASSIAR PARADISE OF GAME HUNTER

H. S. Swarth, Ornithologist, Has Been Collecting Around Atlin Lake

"It is made difficult when it should be made easy, in order to encourage hunting in the Atlin and Teslin Lakes district, as only two hunting parties were in the territory this Summer, where there should have been a dozen or more in an area most suitable to this class of big game," according to Harry S. Swarth, curator of birds at the Museum of Vertebrate Zoology, University of California, who was in the city yesterday, and in the evening addressed the Natural History Society. He has just returned from a visit to Atlin, where he has spent all Summer, coming north in May. Mr. Swarth said he did not wish to criticize the Game Board, from whom he had received many courtesies during his stay in northern B. C., but he did believe that simpler rules would encourage hunting of moose and certain classes of game for which there was no parallel in the north. The security population could be increased and financially benefited if more encouragement were given to the hunters of big game. On the other hand reckless destruction by aborigines of mountain sheep had driven them into areas away from settlement, and other phases of the situation were not very satisfactory, which with some smart adjustment would make the Cassiar into a Mecca for sportsmen. Mr. Swarth says his museum has a fairly comprehensive collection of specimens of other parts of the northwest, and this year rounded out its northern specimens. Hitherto only one party of naturalists, sent in by the B. C. Government, had worked the territory some dozen years ago. He was not in a position to discuss the value of his discoveries this year until careful check had been made of the collection obtained in the current season. While working independently, Major Allan Brooks, the well known naturalist and artist, has covered much the same territory this Summer, studying the birds and mammals. Major Brooks has done much illustrative work for various governments and for scientific and other journals and books.

FAIR PROVED COSTLY ITEM

Revenue For Exhibition Did Not Balance Expenditure

Council Will Pay Taxes on Willows Park Property

The B.C. Agricultural Association conducted the recent fair at a loss of \$2,902, which includes the disappearance of a comfortable balance of \$5,146 from 1923, making the association much poorer, as compared with its previous balance sheet. A statement presented to the City Council last evening made the above fact clear, when it was reported that total receipts of the society were \$28,121.19, and total expenditures \$31,023.25. The association asked for \$3,900 grant towards the cost of the exhibition. The city finance committee recommended that the city should pay the taxes, amounting to \$2,368.58, on the Willows Park property. This sum is due to the council of Oak Bay as from July 1. It was reported that the B.C. Agricultural Association had failed to pay the taxes, as called upon to do by the agreement. Alderman Marchant asked for information on the matter, which the Mayor supplied. It had been reported that the association would not be able to pay the taxes, before the exhibition was held. His Worship pointed out. Alderman Sargent said unless the extra cost would be \$300. They had been in arrears since July 1. That the association was holding a club over the council was the opinion of Alderman Marchant, who stated that the association was responsible under the agreement. **SAYS SITUATION SINISTER** "It seems to me," the alderman said, "as sinister a situation can be on the part of the association, associated with the racing people, men who may be said to have drained the city of its natural income recently, yet these racing authorities have been able to get away with a beggarly pittance, while the association could have met its way by taking more from the privilege." He charged the association with breaking a covenant of the lease, and declared that the whole agreement should be reviewed. Alderman Woodward expressed the hope that the finance committee would look into the matter, and that it was regrettable perhaps that three of the members were directors of the B.C. Agricultural Association. Alderman Sangster objected to the intimation that he would consider the association before his duties as an alderman. Such was untrue. Alderman Woodward declared his statements misunderstood, and the Mayor observed that the remarks were not in the best taste. They did not, however, justify a demand for withdrawal. On a vote the motion carried with-out opposition. Alderman Marchant asked the Mayor who was liable for the deficit? Alderman Sangster: You would like us to be individually! Alderman Marchant repudiated that construction in his remarks. "To whom is this deficit owed, and who is responsible for it?" asked the alderman. "No answer was forthcoming, and the council passed on to other business."

WILL GIVE RELIEF TO ASSOCIATION

Y.M.C.A. Property Threatened With Tax Sale

Reporting that the property of the Y.M.C.A. on Blanshard Street was threatened with tax sale, the finance committee told the City Council last evening that it had instructed the treasurer to pay out of the vote sufficient sum to protect the property from auction, such sum to be offset against taxes. A lengthy statement from the finance committee of the institution was read, explaining exactly the status of the association in relation to bonded indebtedness and taxes. After hearing the communication read, Alderman Marchant expressed the belief that the finance committee should look into the whole question of taxes and report, a suggestion which embodied a resolution of Alderman Woodward on the matter, as the Y.M.C.A. asked for a larger grant in aid. Alderman Sargent remarked that the practice of the finance committee was to offset against taxes payments out to citizens and institutions, whenever sums were due to the city, and such a course would occur in this case. The grant, it was stated, was \$1,000. Alderman Andros and Todd, after learning verbally that the necessary provision had been made already thought a proper record should be kept, as no minute appeared in the records of the Council. The Council approved the action of the committee, and referred the other questions raised to the finance committee for consideration. M. W. Graham, chairman of the finance committee, showed that the critical situation was at August 31, of the association was as follows: Accounts outstanding \$ 1,989 Salaries outstanding 1,888 Tax arrears, 1922-23 1,753 Balance 1924 taxes 770 Bank loan 6,360 Total liabilities \$15,760 The Association asked the Council to grant it relief from the tax arrears of \$1,753, and the balance of the 1924 taxes, \$770. It was pointed out that the total annual taxes had been covered by the city grant until three years ago. With the tax on improvements, the increase had made the grant only cover half the cost. "The directors of the Association," said Mr. Graham, "because they believe in this work as one of vital importance to this community are endeavoring to keep the building open, and the programme in operation in spite of these very serious difficulties."

QUESTION 2—Are you experiencing any kind of trouble with your cows and heifers?
The Bowman remedy IS a remedy. Avoid loss of money—get in touch with us NOW. Further particulars immediately furnished upon application The Erick Bowman Remedy Co. Office and Factory 518 Yates Street.

OCCUPY OFFICE AT OBSERVATORY

Addition at the Dominion Astrophysical Observatory Now in Use

Completing the group of buildings at the Saanich Astrophysical Observatory, the office building was occupied yesterday. This building was long desired by the director, owing to the cramped conditions under which work has been done hitherto, and which have frequently been the subject of comment by visiting astronomers. The contract was awarded last November to Williams, Trerise & Williams, at a contract price of \$23,500. The building, which is designed in keeping with the character of the other structures, contains basement and two stories, with residence above for the caretaker. On the ground floor are the director's and secretary's offices; the general office, measuring 15x23 feet, and designed to contain the measuring and computing machines; the library (21x35 feet) for the collection of valuable reference books, which up to the present have been housed in the observatory, and the scientific periodicals and magazines which are part of the necessary furnishings of the library. The second floor has four offices for the astronomers on the observatory staff; also a general office where the measuring and computing work will be done; and photographic room and dark-room for the development of the plates which are made in connection with observations. In the basement are the heating plant, experimental laboratories and store-rooms.

MRS. JOHN MARKEY DEAD
Woodstock, Ont., Sept. 30.—Mrs. John Markey, wife of John Markey, editor of the Woodstock Sentinel Review, died very suddenly at her home here yesterday. She was in her usual good health yesterday, but this morning complained of a pain in the region of the heart. She died soon afterwards.

INTERURBAN LINE
B.C. Electric Holds Out no Hope of Continuation
There is no hope of shaking the B. C. Electric Railway Company's decision to close down the Saanich Interurban line at the end of next month, the City Council was informed last evening. The special committee, composed of Mayor Hayward, Alderman Marchant and Sargent, who had been appointed a week ago on the suggestion of Alderman Marchant, reported that they had met Vice-president A. T. Goward, learned that the situation was inevitable, and expressed the hope that the company would operate to Sluggert. There was a passing hope, said Alderman Marchant, that perhaps the route would operate to Marigold or Wilkinson. The loss had been continuous since 1912, the worst being this year, it was said.
